# Invitation

Dear Friends,

It is with great pleasure that we invite you to our vibrant country India to attend the Asia-Pacific Congress of Clinical Biochemistry, APFCB 2019 during the winters of November 2019 (Sunday 17<sup>th</sup> to Wednesday 20<sup>th</sup> November 2019).

We ensure you an exciting and informative scientific programme encompassing varied plenary lectures, symposia, breakout sessions and workshops on different issues related to laboratory medicine by world renowned experts. The programme would feature various parallel sessions covering a wide variety of topics, enabling you to tailor the programme as per your own interests and clinical practice, as well as combined with information packed Pre Congress Workshops on 17th November as well.

The 2019 APFCB Congress is going to be held in Jaipur, a modern city with an old world charm. Originally, the city of kings and royal family has now gained prominence worldwide as an important Information & Technology and Medical tourism hub. It also boasts of a modern world-class airport with a range of international and domestic connections.

The Congress venue, Jaipur Exhibition & Convention Centre is itself a state-of-the-art centre, at par with the best Congress destinations around the world.

Through 15<sup>th</sup> APFCB Congress, the sponsor companies will have a chance to obtain information on the latest research and data. It would also be a great forum for them to interact with world's top leader in the field of Clinical Biochemistry.

Incredible India is known for the warm hospitality of our people and our rich culture, nature and language. And of course, the mouth-watering array of cuisines and delicacies we are famous for!

I look forward to your participation to make APFCB 2019 a grand event with great success.

Yours faithfully,

**Prof. Praveen Sharma**

Chairman, Organizing Committee

# Program Highlights

The Asia-Pacific Congress of Clinical Biochemistry, APFCB-2019 will offer you an exciting scientific programme covering varied plenary lectures, workshops, symposia and panel discussions on relevant aspects related to the laboratory medicine. Here is a glimpse of some of the proposed scientific highlights.

The theme for this congress "Laboratory Medicine - Innovation & Integration" is proposed to deliberate on how the future of this discipline is influenced by the rapid progress in technology and to find ways to cope up with emerging challenges. The proceedings are also expected to address on the importance of the integration of laboratories, linked with appropriate networks, partnerships, outsourcing facilities and comprehensive support to clinicians to improve the productivity of the clinical laboratories.

The preconference workshops will be planned to emphasize the logistic aspects like laboratory management, quality indicators, accreditation processes, importance of the traceability, harmonization in the lab, point of care testing, etc. Few workshops will be scheduled directed to the young members on the career opportunities in laboratory medicine and on scholarly activities like clinical lab research and scientific writing.

The plenary lectures and symposia sessions will be planned to emphasize the theme of the congress and will cover updates on varied aspects of laboratory medicine like cardiac markers, risk factors of cardiovascular diseases, metabolic disorders, biomarkers of renal disorders, endocrinology and metabolism, standardization of thyroid function tests, cancer diagnostics, therapeutic drug monitoring, infectious diseases research, autoimmune diseases, role of molecular biology, proteomics and metabolomics in clinical lab practice etc.

# About APFCB

***Asia-Pacific Federation for Clinical Biochemistry  
and Laboratory Medicine (APFCB)***

The Asia-Pacific Federation for Clinical Biochemistry and Laboratory Medicine (APFCB), a regional subdivision of International Federation of Clinical Chemistry and Laboratory Medicine (IFCC), has representatives from over 18 countries. The Asia-Pacific Federation for Clinical Biochemistry and Laboratory Medicine Congress (15<sup>th</sup> APFCB Congress) is a scientific meeting of the APFCB, held every 3 years in different parts of the region. 15<sup>th</sup> APFCB Congress is going to be held in Jaipur, India in 2019.

# About IFCC

***International Federation of Clinical Chemistry and Laboratory Medicine (IFCC)***

The IFCC is the worldwide organisation for clinical chemistry and laboratory medicine. Its mission is to be the leading organisation in the field of Clinical Chemistry and Laboratory Medicine worldwide. Through leadership and innovation in science and education, the IFCC strives to enhance the scientific level, the quality of diagnosis and therapy for patients throughout the world. The IFCC hosts outstanding congresses and conferences to bring its efforts to the global community. IFCC has 79 National Societies members and 34 companies as corporate members.

IFCC's regional subdivisions are working in Europe, America, and Asia Pacific with each subdivision operated mainly by an executive board. Each subdivision holds their own scientific congress.
