## Greetings from CLOTS COURSE

**CLOTS COURSE** (Catheter Lysis of Thromboembolic Stroke) is intended to empower stroke specialists with knowledge and awareness regarding mechanical revascularisation techniques in the management of acute stroke. The participation is restricted to 20 candidates. This is an opportunity for junior Neurologists and DM trainees to develop a good understanding of Neuro Interventional techniques as the first step towards a career in Interventional Neurology.

The meeting will be spread over 2 days starting Saturday morning till Sunday evening.

**Dates: April 23, 24. 2016.**

**Venue: RAJAGIRI Hospital, Kochi, Kerala**

### **Agenda:**

1. Introduction to Endovascular treatment of acute stroke
2. Femoral puncture
3. Basics of Cathlab & Visit to Cath Lab
4. Normal Angio anatomy and variations
5. Angiographic evaluation of acute stroke
6. Basic knowledge of wires catheters
7. Introduction to stent retrievers
8. Basics of Neurointerventional Procedures
9. Stent-Retriever Thrombectomy
