0900–1600	<i>Caring for the Burn-Injured Patient in Resource Restricted Countries: Beyond 48 Hours</i>
1800	<i>Welcome Reception Dinner</i>

Caring for the Burn-injured Patient in Resource-Restricted Countries: Beyond 48 hours

Overall purpose of the Course:

The focus of this daylong workshop is to facilitate discussion among workshop participants. Specific objectives include small group discussions and hands-on activities that focus on care beyond the resuscitative phase of recovery. Specifically, there will be five sessions primarily derived from the published ISBI practice guidelines for burn care. The course provides an ideal opportunity to share experiences and learn for both the novice and expert.

Each of the five topics listed below will be repeated three times. Each participant can choose the **three** topics which they wish to attend. Sessions are limited to 25 participants each so that we can keep the session as interactive as possible.

0800-0830	Registration
0830-0900	Introduction
0900-1030	Session 1
1030-1100	Break
1100-1230	Session 2
1230-1330	Lunch
1330-1500	Session 3
1500-1530	Wrap and Certificates

TOPICS

Pain and Pruritis	Gretchen Carrougher and Helma Hofland
Positioning and Splinting	Michael Serghiou and Ginna Parra
Non Surgical Scar Management	Ingrid Parry and Jonathan Nischak
Metabolic Management	Will Norbury
Respiratory Management	David Harrington and Ron Mlcak
