

SERVING BETTER

About Us

Vytra Industries, a leading plastic packaging thermoformer in Malaysia, celebrated its 30 years in business with a rich heritage of rapid growth, quality and financial stability. At a time when the Malaysian thermoforming industry is undergoing consolidation, Vytra Industries remains as a successful, privately-held entity with a strong balance sheet.

Quality Assurance

Vytra has fulfilled the requirements for industry's installations, personal hygiene and cleanliness of the workplace to the description in writing form of all procedures involved in the product. Our quality management program involved the systematic monitoring and evaluation of the various aspects of every project, service, or facility to ensure that standard of quality are being met.
