

PHYSICIANS' ROLE IN PREVENTING AND MANAGING PNEUMONIA AMONG ELDERLY & HIGH-RISK ADULTS

ONLINE CPD COURSE 2023 Series is Now Open!

Module 1: Pneumonia in Elderly & High-Risk Adults – Burden, Prevention & Management

1 CPD Point
(OCE0058)

Learning objectives:

1. Understand the burden of pneumonia in elderly and high-risk adults.
2. Enhance knowledge of pneumonia management in elderly and high-risk adults.
3. Explore effective pneumococcal pneumonia prevention strategies for elderly and high-risk adults.

Presented by:

**Assoc. Prof.
Dr. Pang Yong Kek**
• Lecturer, Faculty of
Medicine, University Malaya
(UM)
• Senior Consultant
Respiratory Physician,
UM Medical Centre

Module 2: Pneumococcal Conjugate Vaccine Use in Elderly & High-Risk Adults

1 CPD Point
(OCE0059)

Learning objectives:

1. Understand the importance and impact of pneumococcal vaccination on elderly and high-risk adults.
2. Know the types of pneumococcal vaccines that are available for use in elderly and high-risk adults.
3. Stay up to date on the efficacy, safety, and effectiveness data of PCV in adults, including elderly and high-risk groups.
4. Know and understand pneumococcal vaccination indications and recommendations for elderly and high-risk adults.

Presented by:

Prof. Dr. Zamberi Sekawi
• Professor of Medical
Microbiology, Faculty of
Health Medicine and Health
Sciences,
Universiti Putra Malaysia
• Senior Consultant Clinical
Microbiologist,
Hospital Pengajaran
Universiti Putra Malaysia

Module 3: Prioritising Prevention – A Moral Responsibility

1 CPD Point
(OCE0060)

Learning objectives:

1. Recognise that adult vaccination advocacy is a moral responsibility for medical professionals.
2. Identify the challenges and barriers to pneumococcal vaccination uptake in adults.
3. Recognise the importance of pneumococcal vaccination as a standard of care among vulnerable adults.
4. Understand how medical professionals can promote the uptake of pneumococcal vaccination among vulnerable adults.

Presented by:

Dr. Azureen Azmel
• Infectious Diseases
Physician, Hospital Tengku
Ampuan Rahimah (HTAR),
Klang
• Head of Antimicrobial
Stewardship Programme,
HTAR, Klang
