Dear Member,

As you may be aware, South Korea is a lucrative market for Cotton textiles. India has signed an FTA with South Korea under which import duty on cotton fabrics & cotton made-ups are zero w.e.f. 1/1/2014 thereby offering huge scope to export these products to South Korea. There is also potential to export cotton yarn.

To discuss the potential to export textiles to South Korea and the issues faced in exporting, the Council has arranged for a meeting of exporters exporting to South Korea.
