PRESS RELEASE

PR 019/2016-17

7th July, 2017

The Commercial Editor

Dear Sir/Madam,

Export of Oilmeals – 1st Quarter April – June 2017 – Up by 64%

The Solvent Extractors' Association of India has compiled the export data for export of oilmeals for the month of June 2017. The export during June 2017 is reported at 150,918 tons compared to 132,771 tons in June 2016 i.e. up by 14%. The overall export of oilmeals during April – June 2017 provisionally reported at 499,140 tons compared to 304,703 tons during the same period of last year i.e. Up by 64%.

In last three months the export of oilmeals improved compared to the previous year, thanks to good monsoon, better oilseeds production and price parity. In percentage terms export showing improvement, but still it is lower compared to earlier years, which can be seen from the below table. It may be also noted that India faced drought years during 2014-15 and 2015-16, which lead to lower production of oilseeds which affected export of oilmeals to a lowest level.

We have hosted the update data on SEA website www.seaofindia.com.
