Ramgarh Shekhawati is a spectacularly beautiful town of wall frescoes, often known as the open art gallery of Rajasthan, has gifted the world with a Heritage that is the epitome of the Creative Indian Spirit, set amidst a rugged yet inviting landscape...

It recalls to us the eternal Indian quest for Infinite Innovation - its Culturescape of Massive Diversity – of Stunning Profusion of Forms in its Magnificent Mahals, massive Forts, and Stunning Havelies, its Stepwells and Johads, and above all, its Passionate, Candid and uninhibited dynamism in the warm expressions of its people – the beautiful and creative ways of dressing and adornment, the diverse array of delectable cuisine, their passionate word and song, their scintillating dances, and how they depicted their deities, their fashions, the changing times and their desires and fantasies with ever evolving expressions profusely showcased on the doors, walls, celings, pillars and domes.

Ramgarh Shekhawati, created as the most beautiful town of Rajasthan in the 18th and 19th centuries, by the rich Poddar merchants on the desire of a Queen, is on its way to become ... the most coveted Heritage tourism destination for the World!
