

Acoustic Timber Doors

Being classy and aesthetically pleasing, timber doors are always a natural choice for architectural interior. ISTIQ Acoustic Timber doors are engineered not only to look gorgeous, but also to provide you the soundproofing you actually need. ISTIQ doors can help us solve a long list of noise problems; office privacy issues, loud audio system in residential areas and flanking noise in recording studios, to name a few.

ISTIQ offers 3 different line-ups for its Acoustic Timber Doors:

Model	Features	Application

* For other STC ratings than above, kindly call us for details.

ISTIQ Architectural Acoustics

Home Theatre Acoustical System

High Definition AV is accessible at home since many years back. But are you getting the most out of it? Are you sacrificing the serenity of your home and the neighbor's with your audio system? Sound proofing and acoustics are the key factors that ISTIQ can deal for you, so that you win the juice of your AV system, and the hearts of your neighbors.

Overspending on the AV sets without doing anything about the acoustics is a complete no-no. Call us to treat your room acoustics, and with modest AV equipment you can enjoy a clean, magical surround audio.
