Pre-Conference Course
KIIT Convention Centre
Bhubaneswar, Odisha

Dr. Sanjeeb Ku. Sahoo

From the Desk of Organising Chairman ◆◆

Dear Fraternity Colleagues, from the land of Lord Jagannath comes this invitation to assemble at the city of temples, "Bhubaneswar" for the "54th Indian Orthodontic conference" to be held in November 2019.

The conference will embrace clinical and research philosophies, percussions and the latest trends in the field of Orthodontics and Dentofacial Orthopedics.

The theme of the conference is Innovate, Integrate and Actuate.

Social interaction is an important component of learning and the state of Odisha,- the land of eternal solace; is one of the most sought after destinations in eastern India. Some of the must visits are the Konark sun temple and White tiger- the confluence of mankind's architectural wonders with nature's elegant creation. The state is admirably known for its serene and sublime landscapes situated along the coast of the Bay of Bengal. Food and Hospitality are also a mark of excellence in the culture of Odisha all of which would enhance the ambience for an overwhelming scientific conference.

The Organising Committee intends to make the most of these attributes to ensure that the conference be an enjoyable experience enriched with knowledge and a much needed break from the routine which would be cherished for lifetime.

Come visit us in Odisha-2019. We are there to welcome you wholeheartedly!

Dr. Surya Kanta Das

From the Desk of Organizing Secretary ◆◆

Greetings! On behalf of the Orthodontic fraternity and the Conference Organising Committee, I extend a hearty welcome to the 54th Indian Orthodontic Conference 2019, Bhubaneswar. It's our privilege to host the IOC for the first time in Odisha. Having said this, it means a lot of responsibility and hard work from all of us here.

I thank each of you from bottom of my heart to have given us a chance to host this prestigious event. As promised on the dais during bidding of the conference at AGM, 2014, Kolkata we have slashed the conference registration fees echoing the general sentiment of the members. We are extremely pleased to offer best registration fees with a genuine effort hoping a large participation from all parts of India. At the end, I must say that we are blessed to have a young and vibrant organising team to make the conference memorable from every aspect.

Seeking blessings and guidance of the seniors of the Orthodontic fraternity of India, I once again invite you all to experience the hospitality of ODISHA, the soul of incredible India! With best regards.

Dr. Ashish Ku. Barik

From the Desk of Scientific Chairman ◆◆

Dear IOS fraternity,

As the scientific chairman of 54th Indian Orthodontic Conference 2019, with reverence and rejoice, I welcome everyone to the scientific forum aimed to **innovate, integrate & actuate** your thoughts and thinking. I promise you that the scientific program will enlighten you with a vibrant scientific program for both academicians and clinical practitioners. The following international faculties have given their consent to be a part of 54th IOS. The complete list will be released soon.

THE KEY SPEAKERS

Dr. Bill M. Dischinger is an Associate Professor in the Orthodontics Department at the University of The Pacific in San Francisco and one of 12 certified Damon instructors who have taught and lectured extensively on passive self-ligation with the Damon System. He has also lectured nationally and internationally on a variety of subjects, including functional jaw orthopedics, indirect bonding, and practice management from a team approach.

DR. BILL M. DISCHINGER

Dr. Simon Graf from Switzerland has a specific interest in the translation of production of orthodontic appliances in the digital world. He started in the beginning of 2014 with a CAD/CAM-procedure for 3D metal-printed rapid-palatal-expansion device (hyrax) directly from an intraoral scan. As soon he was able to establish a standardized protocol for this appliance, he continued to work on the herbst-appliance, lingual arch etc. and proceeded to bone-borne appliances. As the materials are evolving, he is now working on acrylic direct printed removable appliances. Also, he is involved in the development of self-designing appliance software.

DR. SIMON GRAF

Dr. Pedro Costa Monteiro, DDS, MSC, from Portugal has pursued his Post-graduation in Orthodontics (2005-2006) and Master of Orthodontics and Facial Orthopedics (2006-2008) from the Instituto Superior Ciências da Saúde – Norte. He is conducting projects with the goal of sharing knowledge in the world of Damon System and Invisalign.

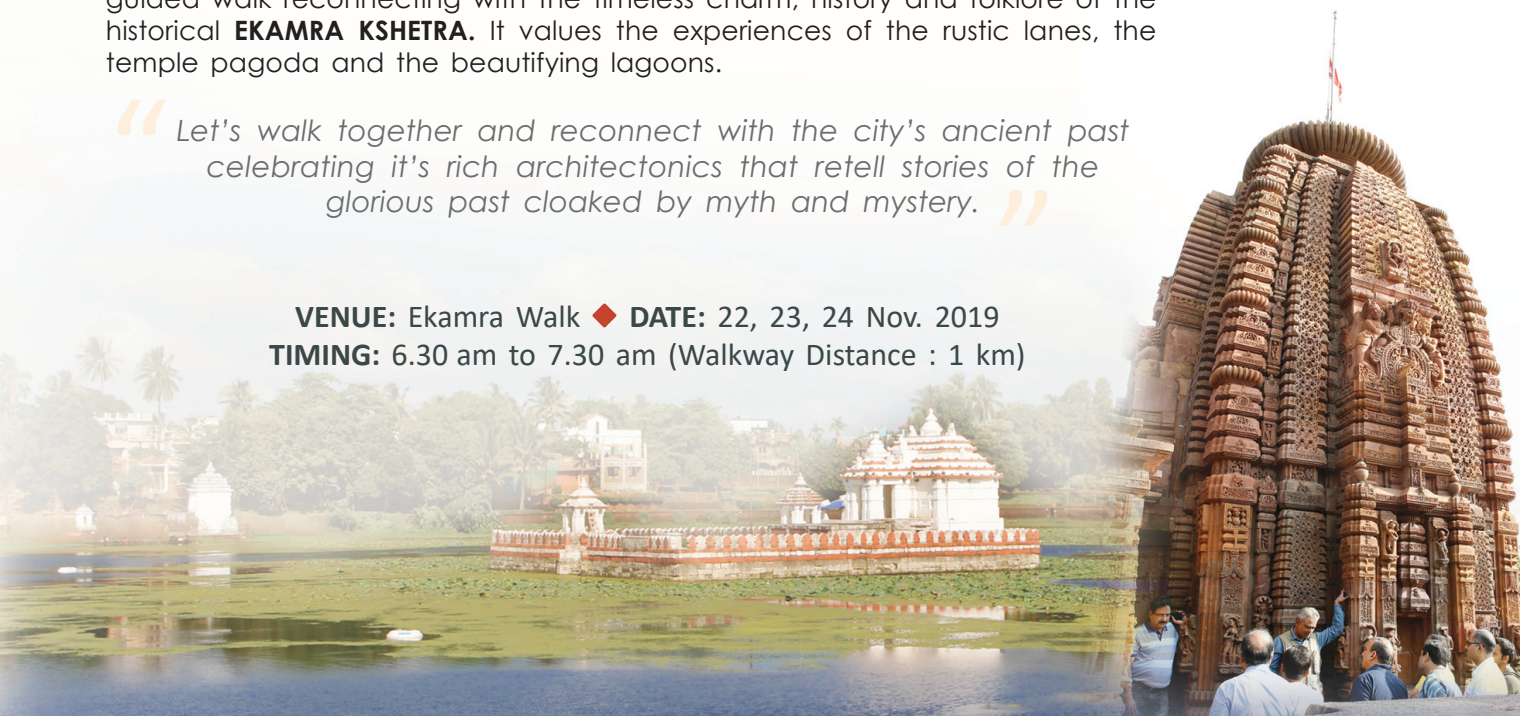

DR. PEDRO COSTA MONTEIRO

ECSTATIC VOYAGE

A cordial invitation to all the delegates for exploring the bequest of Bhubaneswar through the journey of **EKAMRA WALK**. It marks the heritage and tradition associated with the temple culture in Bhubaneswar. A trail of two kilometers of guided walk reconnecting with the timeless charm, history and folklore of the historical **EKAMRA KSHETRA**. It values the experiences of the rustic lanes, the temple pagoda and the beautifying lagoons.

“ Let's walk together and reconnect with the city's ancient past celebrating it's rich architectonics that retell stories of the glorious past cloaked by myth and mystery. ”

VENUE: Ekamra Walk ♦ **DATE:** 22, 23, 24 Nov. 2019
TIMING: 6.30 am to 7.30 am (Walkway Distance : 1 km)
