38th
Annual Conference of
Indian Society of Nephrology
Southern Chapter
9th - 11th Feb 2018

Organized by Department of Nephrology
Osmania General hospital
(Supported by Hyderabad Nephrology Forum)

Venue:
Leonia Convention Centre.
Dear colleagues,

Welcome to ISNSCCON-2018!

On behalf of the Organizing Committee of ISNSCCON 2018 we have great pleasure in welcoming you to the 38th Annual Conference of Indian Society of Nephrology Southern Chapter, to be held at Hyderabad. The ISNSCCON, as you all know, has grown to become one of the most important conferences for Nephrologists in South India. We are privileged to host this event at Hyderabad in February 2018.

The Scientific program for ISNSCCON 2018 program will be designed to update the knowledge on various aspects of Nephrology. The program will not only have Plenary lectures, guest lectures and symposia, but also workshops to provide hands-on training in several important practical areas of Nephrology. There would also be ample opportunities for young researchers / post graduates to present their research work in the form of free papers and posters.

Hyderabad has state of art facilities for a conference of this magnitude and is well connected by air / train with different parts of the country.

Hyderabad, the City of pearls, is known for its rich history, food and its multi-lingual culture. It is known for its monuments like the Charminar, Golconda Fort, Falaknuma Palace and for artificially created lakes like the Hussain Sagar, Osman Sagar and the Himayat Sagar. It is also home to the top research institutions like National Institute of Nutrition and Center for Cellular & Molecular Biology and business schools like Indian School of Business, IIT, IIIT and BITS.

We look forward to welcoming you to the ISNSCCON 2018. The Organizing Committee is working hard to ensure that ISNSCCON 2018 will be an academically and culturally enriching event for all of you.

Dr. Manisha Sahay
Organizing Secretary
ISNSCCON 2018

About Hyderabad

Charminar
Charminar is one of the most visited places in Hyderabad for its beautiful minarets views. Charminar was built in 1591 by Mohammed Quli Qutb Shah and is a beautiful structure with four intricately carved minarets. The city is often identified with the majestic Charminar, which stands at the centre of the old city in its entire splendour amidst the colourful shops of LaadZAa r with its glittering traditional bangles, often called "The Arc de Triomphe of the East", tales has it that the emperor Quli Qutb Shah interceded for the end of plague and took the vow to develop a Masjid on that very own position. Real to the emperor, the city started into a functionality of two cultures.

Golconda Fort Qila
Originally a mud fort founded by the Kakatiya Kings of Warangal during the 13th century, Golconda attained glory under the Qutub Shahi dynasty (1518 to 1687). This is where the priceless Kohinoor diamond was found. One of the famous forts of India, an added attraction here is an enchanting sound & light show in the evenings. One of the most interesting look of Golconda Fort is its system of acoustics. The sounds of hands clapped at the entry gate can be heard clearly at 'Bala Hissar', the highest point, a kilometre away. The timings of the show are different during summers and winters. During November–February, the shows begin at 6:30 pm, & during March–October, the shows begin at 7 pm.

Birla Temple
The various Birla Mandirs constructed across the country were built by the industrialists Birlas. Sri Venkateswara or Lord Lakshminarayana, is the deity of these temples. Strangely, however, these temples are known by the family that undertook the noble cause. The Birla Mandir in Hyderabad is built on the 280-foot-high hillock of Kalapahad. Birla Mandirs are constructed entirely using marbles. It is believed that it took 2000 tonnes of white marbles brought from the Indian state of Rajasthan to complete this holy place. The intricate marble carvings blending the South Indian architecture, Utkal temple architecture and Rajasthani architecture is simply amazing.
Venue Leonia

Housing the largest one-man collection of antiques in the world, the Salar Jung Museum encompasses global artefacts dating back centuries. The Museum was established in 1951. Situated on the southern bank of the river Musi, the Salar Jung Museum is not far from the other important monuments of the old city. Salar Jung Museum is a repository of the artistic achievements of diverse European, Asian and Far Eastern countries of the world. The major portion of this collection was acquired by Nawab Mir Yousuf Ali Khan popularly known as Salar Jung III. The zeal for acquiring art objects continued as a family tradition for three generations of Salar Jungs.

One of the biggest man-made lakes is situated at Hyderabad. Its uniqueness lies in the fact that it connects the twin cities of Hyd. and Secunderabad. A famous monolith of Lord Buddha is installed at the center of the lake. Hussain Sagar Lake is popularly known as the Tank Bund, a major spot of tourist attractions. The Hussain Sagar was constructed on a tributary of the Musi river by Hussain Shah Wali during the reign of Ibrahim Quli Qutub Shah in 1562. It is a sprawling artificial lake that holds water perennially. Every Sunday cultural programmes are conducted by the Department of culture in the evenings and admission is free for the public. Boating & Water Sports are a regular feature at Hussain Sagar.

Hyderabad is a memorable and adventurous experience. Each bazaar has its own unique character and speciality: visit Moazzam Jahi Market for food products, Laad Bazaar for bangles and Sultan Bazar for clothes and accessories. Most markets are clustered around the Charminar, an area renowned for its heritage buildings, rich culture, excellent food and old-world charm. From local crafts, jewellery and textiles, to clothes and books, these markets in Hyderabad have something for everyone.
