Diplomate WCOI

TECTONIC SHIFT IN IMPLANT PRACTICE WITH DIGITAL WORKFLOW

In this era of immediate loading, DIO Digital implant solutions makes it possible to utilise unexpected areas of bone to gain desired initial stability for immediate loading with prefabricated customised abutments and crowns. This lecture will discuss how a shift from conventional workflow to digital workflow is possible and how it can make a remarkable difference in the way Implantology is practiced. Predictability is the result of perfect planning, but digital workflow ensures to achieve these predictable results with maximum safety.
