“DIGITAL DISRUPTION IN IMPLANT DENTISTRY”

Digitisation has revolutionised the world like no other technology. It has entered and controls every moment of our waking and sleeping life. Dentistry is no different.

This presentation will review the entire in-office workflow in implant dentistry including,

- 1) Digital CBCT
- 2) Treatment planning
- 3) Guided surgery
- 4) Immediate temporisation
- 5) Final prosthetic options with partial and full arch restorations
