At this point in time, we are experiencing history in the making. As COVID-19 impacts people across the globe, the economy is seeing the impact of mandated isolation and shutdowns.

However, we believe there is always a silver lining of a cloud when the sky is going to clear!

As a part of the community, we have the responsibility to protect people around us, especially your loved ones.

As viruses know no borders, the impacts will continue to spread. It could still be a long road ahead to get everyone's daily life and the economy-at-large back to where they were before. We believe if we work together, we can keep our bodies and our businesses healthy. This is a time for community and togetherness.

Let's prevent the spread and revive our economy together!
