MESSAGE

I am happy to learn that The Synthetic & Rayon Textiles Export Promotion Council is hosting its pioneering Reverse Buyers Sellers Meet - SOURCE INDIA 2020 5.0 Virtual during 7th-9th September. The event which was first held in 2010 has since 2016 been an annual event and each year has crossed many a milestones. This year due to the ongoing circumstances the event is being held **online**.

Around 100 Exhibitors of MMF textile products will be interacting with about 250 buyers from 50 countries. This unique event has been highly successful as it gives both the Exhibitors and buyers an opportunity to interact and discuss business under a single platform. I am confident that like in the past events, this year too Exhibitors will be successful in clinching business deals in the comfort of their workplace.

My congratulations and best wishes to the Council for the success of the event.

(Ravi Kapoor)

Company Profile	<p>RSWM Ltd., the flagship company of 1.5\$ billion LNJ Bhilwara Group, is one of the largest textile manufacturers in India and exports to over 65 countries around the world. Its 10 manufacturing plants, with 4,45,000 spindles and 167 looms, produce high-quality cotton, mélange, synthetic and novelty yarns, along with suiting and denim fabrics.</p> <p>The company's unit at Kharigram, one of India's most sophisticated plants, has 51,840 spindles out of a total of 1,67,792 at this location. The yarn from this factory is sold under the brand name ULTIMA® and is the finest polyester-viscose greige yarn in the Indian market. RSWM Limited has recently segmented its wide range of functional yarns into 10 categories under the RSWM EDGE® hang tag programme. Specialising in poly-viscose blends, RSWM Ltd. provides the fashion, protective wear and interiors markets with 15 million metres of fabric per year. Its three branded collections, Mayur, Cannello and Verona are sold worldwide. RSWM has more than two decades of experience creating superior mélange yarns under the brand name Melantra and cotton dyed yarns in various sparkling colors and shades. We produce 14,000 metric tons of mélange yarns annually on 75,000 spindles. Established in 2007, the denim division of RSWM Ltd. (LNJ DENIM) produces 25 million metres of fabric annually in both traditional and innovative constructions and blends.</p> <p>In an effort to contribute to climate change, RSWM's recycled polyester stapled fibre plant near Jaipur transforms waste PET bottles into Fibre Green, our certified recycled Polyester fibre. This factory manufactures recycled polyester fibre and has production capacity in excess of 120 tons per day. We believe in supporting a universal standard for sourcing organic cotton fibres. We follow the processes set by the Global Organic Textile Standard (GOTS), the Better Cotton Initiative (BCI) and the Fair trade Foundation</p>
