Government of India

ABOUT SOURCE INDIA 2018

1,441 million kg of Man-made Fibre, 3,583 million kg of yarn and 24,643 million sq m of fabrics, a self-sufficient raw material production base and centuries-old heritage of textiles - that is what India has to offer to the international buyer.

With 73% share of the world's textiles and 17% share of India's total textiles exports, the Man-made Fibre Textiles (MMFT) Industry is growing. India is the second largest producer and 6th largest exporter of MMFT in the world, and with government initiatives like Make in India, the time is right to explore the unlimited possibilities of MMFT and its blends, and expand your sourcing network in India.

Source India 2018 is the second edition of the international flagship event organised by The Synthetic & Rayon Textiles Export Promotion Council (SRTEPC), under the aegis of the Ministry of Commerce & Industry and Ministry of Textiles, Govt. of India. It will be held from 21st to 23rd September 2018 at the Surat International Exhibition & Convention Centre, Surat, India.

There is a huge demand for Synthetic Fibre Textiles and its blends due to their versatile & durable nature, and diversified uses. This demand will only be strengthened in the future since the global production & consumption is increasingly moving towards MMFT and its blends. Source India 2018 aims to provide the ideal platform to international buyers who are interested in sourcing their requirements from India, and take advantage of its ever-expanding, vibrant and future-ready product base that covers the entire Man-made Fibre & Blended Textile Value Chain.
