From the presenters of the oldest and world renowned power event	**POWER-GEN** *India & Central Asia* Renewables | Fossil Fuels | Nuclear	**Internationally well established leading and focused renewable energy expo & conference**	**Complete Power Event being organised at Pragati Maidan- the heart of Delhi for easy and convenient access**
Renewable Energy World India will bring industry professionals from India and international experts together to exchange knowledge and share ideas about best practices and new renewable energy technology developments, with the aim of providing low carbon and sustainable solutions for the Indian power sector.

Renewable energy will play an even more important role as the Government of India seeks to ultimately transform India's power generation system into one that is low-carbon and highly efficient.

The high calibre of speakers and comprehensive conference programme will establish **Renewable Energy World India** as a must-attend event for the renewable energy industry.

There is no better time to showcase your renewable energy products and services at Renewable Energy World India conference and exhibition.
