

Import Control System 2 (ICS2) – Release 2

Session 7: Secure and safe transport to protect the flow of postal supply chains through pandemics and beyond

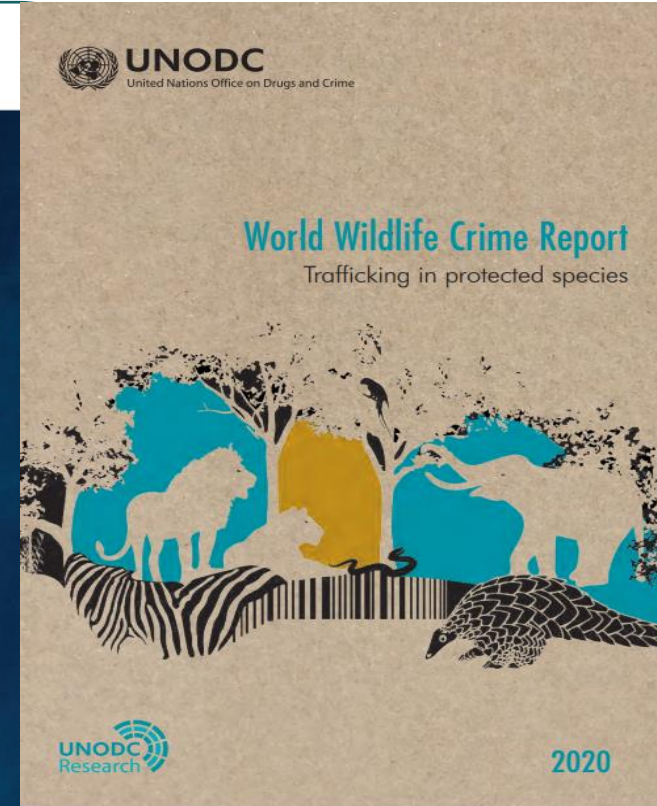

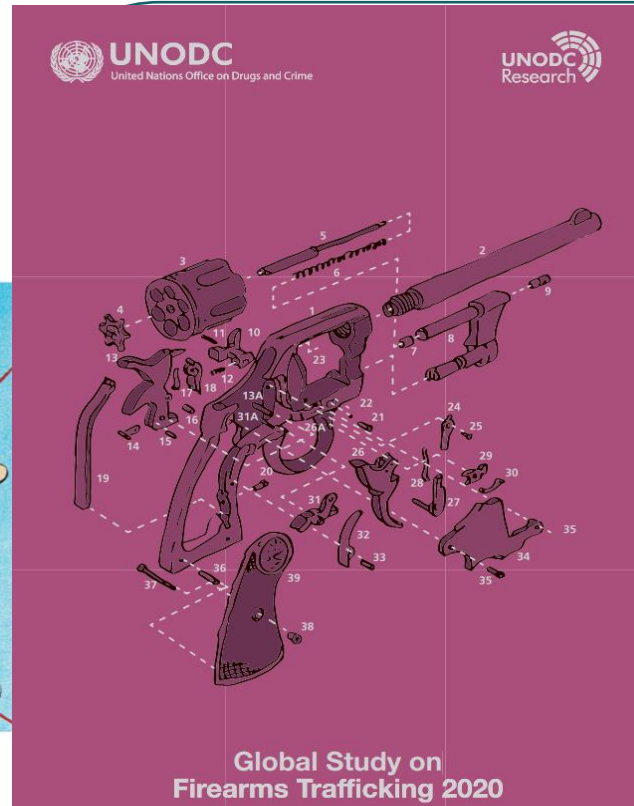

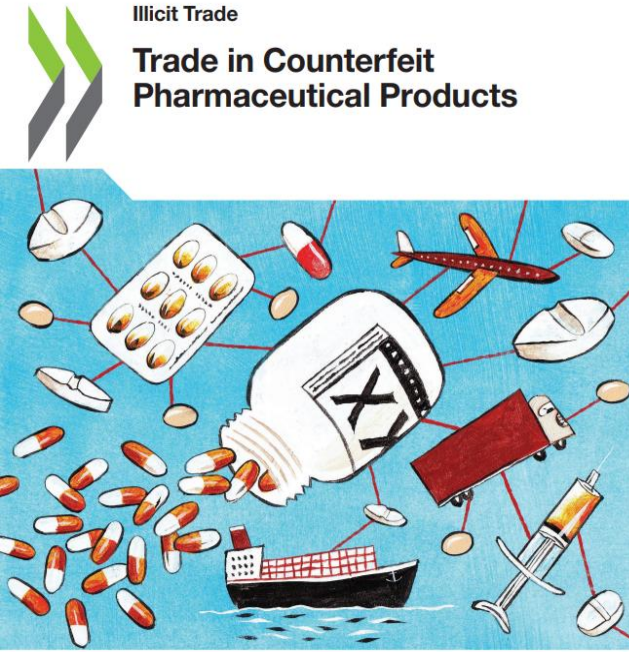

WCO-UPU Global Conference June 7th 2023

Secure Transport

Global challenge for customs and posts

Security and Safety

Global challenge for customs and posts

ICS2 – a layered response to threats

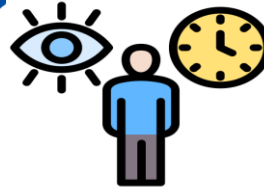

ACI /
EAD is

Mandatory for all goods (in postal, cargo and express chain) and transport modes

Supervise and monitor flow of goods to EU by collecting data in advance loading and arrival

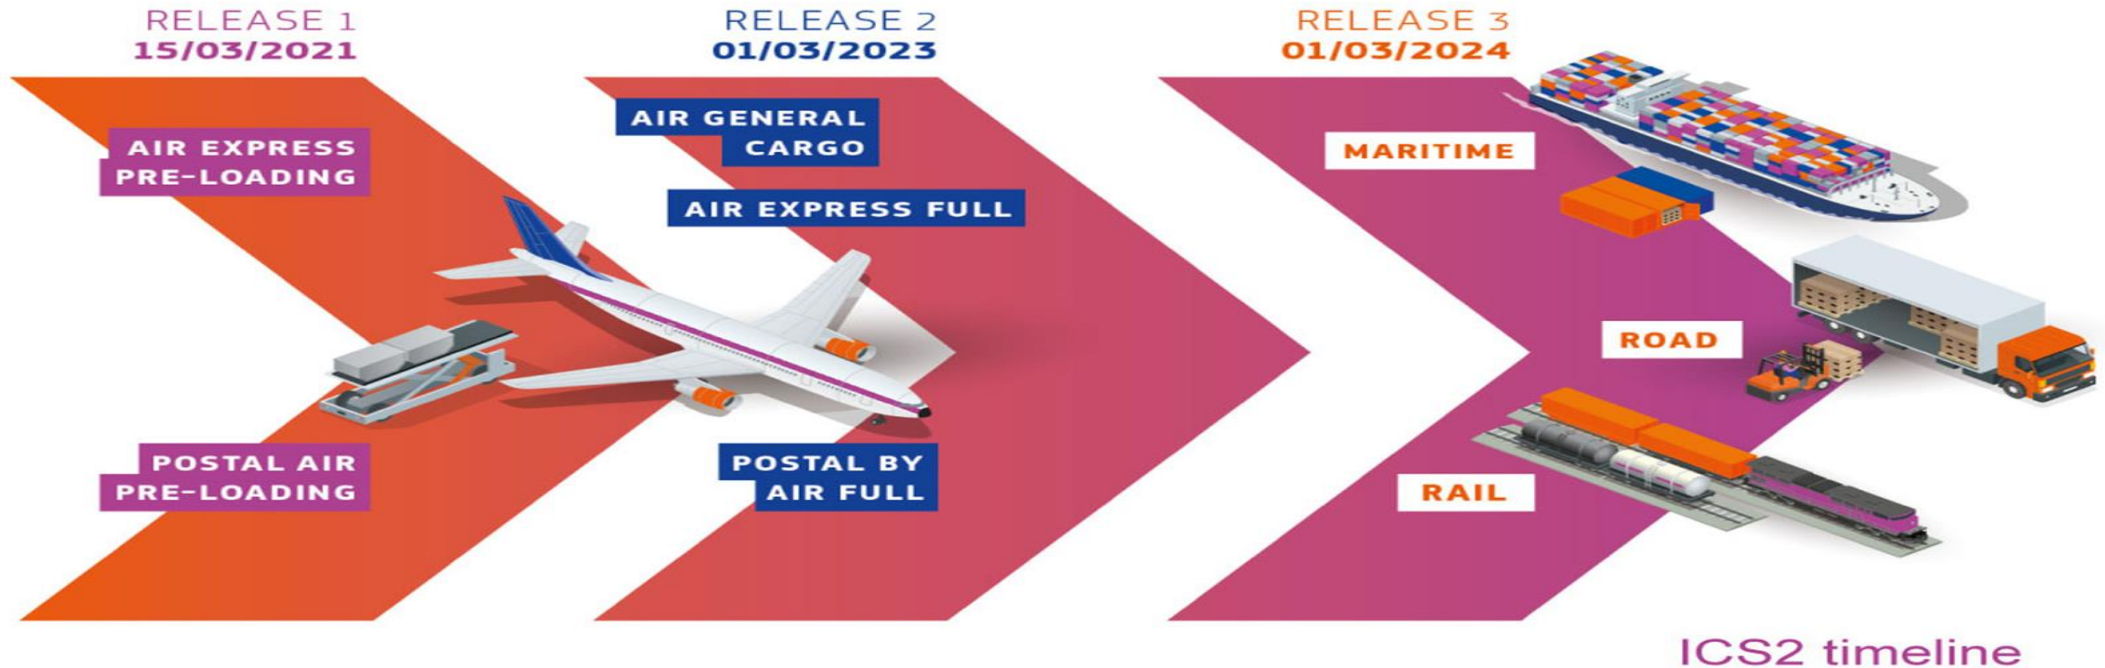

Anticipate risks and facilitate legitimate trade via joined up risk analysis and single interface to trade

Mitigate safety and security risks: detect, intervene or control where required in a coordinated way

ICS2 – Phased ACI/EAD postal implementation

- EU destination flows
- PLACI risk assessment and mitigation (security referrals)
- EU destination, transit and transshipment flows
- PLACI and pre-arrival risk assessment and mitigation
- EU destination, transit and transshipment flows
- Pre-arrival risk assessment and mitigation
- Additional insights for air carriers to unresolved security referrals

ICS2 – Challenges in securing postal flows

- **Current**

- EAD data coverage (gaps)
- EAD data quality (sender, receiver, commodity..)
- Air mail security referrals (additional screening based on the risk assessment)

- **Future**

- Transit and transshipment (Release 2)
- Integration of the Maritime, Rail and Road (Release 3)

ICS2 – Takeaways

- **Electronic Advance Data for a layered management of risks**
 - Sharing the EAD with customs covering all postal flows is a must
 - Investing into full coverage, exchange and high quality of EAD for all international postal flows will **return in improved security and safety, fluidity and competitiveness**
- **Operational cooperation for secure postal supply chains:**
 - Customs2Post – to improve EAD data quality, performance and compliance
 - Post2Post – to ensure that security referrals are communicated, acted and responded, EAD data quality improved
 - Post2Air Carriers – to ensure only items with no identified or resolved threat to aircraft are transported

Thank you
