Tackling issues  
encountered during  
Customs clearance

3

### **Post to the self- certification**

risk analysis  
monitoring  
supervision

# WAY FORWARD

- The general manager of a chemical fiber manufacturer,

"After becoming an approved exporter, we can produce declarations of origin, which reduces the time cost for certification. With the implementation of the FTAs, we have received more long-term orders from our customers, and our annual exportation value is expected to realize a 10% increase".

- relaxing the entry requirements on approved exporters
- including the self-certification article in more FTAs

**THANK YOU FOR LISTENING!**
