WELCOME MESSAGE

Dear Colleagues

On behalf of the Organising Committee of the 26th Regional Conference of Dermatology 2024, we would like to cordially invite you – dermatologists, physicians, aesthetic practitioners, dermatological trainees, medical officers, nurses, pharmacists and all professionals associated with dermatology – to join us for the 26th Regional Conference of Dermatology on 2-5 October 2024 at the Kuala Lumpur Convention Centre. The Annual Dermatology Conference of the Dermatological Association of Malaysia will be held in conjunction with the 26th RCD 2024. We, of course, welcome the pharmaceutical and biomedical partners to join us for this face-to-face conference as well.

The theme of the 26th RCD is 'Medical & Cosmetic Dermatology: Global Panorama' and will cover the technological advancements and breakthroughs in dermatology, updating the skills in the management of skin diseases and providing an opportunity to meet with the key opinion leaders within the region and internationally.

Renowned and prominent faculty of speakers are being lined up with well-chosen topics to ensure that this conference will be academically fruitful. This would be the perfect opportunity for the fraternity in the region to come together in fellowship and pave the way to enhance cooperation and sharing of experiences and knowledge.

We look forward to welcoming you to Malaysia.

Dr Sabeera Begum
Organising Chair, RCD 2024

PDM EXECUTIVE COMMITTEE 2024 - 2026

Associate Professor Dr Tan Wooi Chiang	President
Dr Sabeera Begum	Immediate Past President
Dr Ch'ng Wee Beng, Peter	Vice President

17:15 - 17:25	Q&A

IF YOU CAN PREVENT SHINGLES SUFFERING, WHY WOULDN'T YOU?¹

SHINGRIX
(ZOSTER VACCINE RECOMBINANT, ADJUVANTED)

NOW APPROVED IN MALAYSIA

YOU CAN NOW PROTECT YOUR PATIENTS WITH SHINGRIX.

INDICATIONS

Shingrix is indicated for the prevention of herpes zoster (HZ) and post-herpetic neuralgia (PHN) in

≥50

Adults 50 years of age or older¹

≥18

Adults 18 years of age or older at increased risk of HZ¹

MSIDC and CDC recommends vaccinating your patients **≥ 50 years with 2 doses of SHINGRIX.**^{2,4}

Protection that lasts. SHINGRIX offers 97% efficacy to adults ≥ 50 years, and 91% to adults ≥ 70 years.^{1*}

Established safety profile. Most vaccination reactions were **mild to moderate, with a median duration of 2 - 3 days.**^{3†}

SHINGRIX is given as a 2-dose series. For ≥ 50 years old, 2nd dose should be administered 2 months after 1st dose. If flexibility is necessary, it can be administered between 2 - 6 months after.¹

VACCINATE NOW FOR PROTECTION THAT LASTS UP TO 10 YEARS¹

Median follow-up period of 3.1-4 years in ZOE-50/70.¹

* 97.2% (95% CI: 93.7; 99.0) VE against confirmed shingles in subjects ≥ 50 years in ZOE-50, 91.3 (95% CI: 86.8; 94.5) VE against confirmed shingles in subjects ≥ 70 years in pooled data from ZOE-50 and ZOE-70.¹

† Median duration of 3 days or less for local symptoms and 2 days or less for general symptoms.³

SHINGRIX
(ZOSTER VACCINE
RECOMBINANT, ADJUVANTED)

ACHIEVE LASTING CHANGE

DUPIXENT is indicated for the treatment of adults and pediatric patients aged 6 months and older with moderate-to-severe atopic dermatitis who require chronic treatment and whose disease is not adequately controlled with topical prescription therapies or when those therapies are not advisable. DUXIEN can be used with or without topical corticosteroids.¹

RAPID AND SUSTAINED CONTROL – CONSISTENT ACROSS ALL AGES

- » Sustained improvement of itch, skin clearance, and QoL up to 52 weeks, with rapid control after first dose¹⁻¹⁶

UNIQUE LONG-TERM SAFETY PROFILE

- » With 5 years long-term safety data in adults¹⁷
- » Approved in patients as young as 6 months¹

START WITH EASE, STAY WITH CONFIDENCE

- » DUXIEN is not an immunosuppressant¹
- » 87% Adult patient satisfaction with DUXIEN treatment at 3 years¹⁸

~38,075 PATIENTS TREATED WITH DUXIEN IN RWE STUDIES¹⁹
