POST GRADUATE STUDIES IN WOUND CARE MANAGEMENT

CERTIFICATE
IN CLINICAL
WOUND CARE

CERTIFICATE IN CLINICAL WOUND CARE Your Pathway To Post Graduate Studies In Wound Management

The Certificate in Clinical Wound Care (CCWC) is the only programme of its kind in Malaysia which provides healthcare practitioners with the specialised knowledge and proficiency required to work in a practice setting with patients impacted by complex wounds resulting from a variety of disease pathologies and factors. CCWC courses are conducted by Prof. Dato' Dr. Harikrishna K.R. Nair, Chairman of the ASEAN Wound Council & President of the Malaysian Society of Wound Care Professionals (MSWCP). Obtaining a CCWC provides you with a strong foundation to continue with postgraduate studies in wound care.

Why Choose CCWC?

- **Advance Your Career**
Gain specialized knowledge and practical skills in wound care management, opening doors to diverse career opportunities.
- **Special Fee Discount**
Receive a special fee discount when you continue from CCWC to Post Graduate studies in Wound Management.
- **Pathway to Further Studies**
The CCWC certificate allows you to seamlessly transition to Post Graduate studies in Wound Management.

Empower your career in healthcare. Start with the CCWC today and unlock new opportunities in Wound Management!

IWII & 6TH GLOBAL WOUND CONFERENCE 2024

**Message From The Honorable
Minister of Health Malaysia
Datuk Seri Dr. Haji Dzulkefly bin Ahmad**

Salutations and greetings to all. It's a pleasure and honour for me to support this auspicious event organised by the Malaysian Society of Wound Care Professionals (MSWCP) and the International Wound Infection Institute.

I am happy that I am able to be a part of the initiative to launch the IWII & 6TH GLOBAL WOUND CONFERENCE 2024: GLOBAL WOUNDS AND THE DIAL OF HEALING. Malaysia has always played a crucial role in wound management and therefore it is an honour to be the host country for the inaugural hybrid meeting of the International Wound Infection Institute. I would like to congratulate MSWCP President Prof. Dato' Dr. Harikrishna K. R. Nair for taking the lead and organising this conference. There are 80 booths with 1000 delegates physically and 2000 more delegates who have joined virtually from various countries across the globe. This is bound to have a great impact on the conference.

I would also like to congratulate the MSWCP for their many projects which include the **Free Home Nursing Programmes** for the poor and non-ambulatory patients as well as the **'Adopt a Patient Programme'** and **'The Wound Care Kit Programme'**. These initiatives help many Malaysians, especially those with wounds such as Diabetic foot ulcers, Venous ulcers, Pressure Injuries, Surgical, Traumatic wounds and others. It has been reported that every seven seconds, a diabetic patient dies in the world. Simultaneously, a foot is amputated every 20 seconds. With the increasing prevalence of non-communicable diseases in Malaysia, the service that Prof. Dato' Dr. Harikrishna KP Nair and all wound care specialists in Malaysia provide has become increasingly important.

Therefore, it is very crucial that wound care be looked at as an important issue. The Ministry also has allocated budgets under the Medical Development Division and the Family Health Development Division to expand wound care services in the community. There are 149 hospitals which have wound teams and units as well as 844 health clinics that have received training. I would like to congratulate the National Technical Committee on Wound Management and Prof. Dato' Dr. Harikrishna who is also the National Advisor for Wound Care under primary health for their excellent work in spreading their expertise across the nation.

I am proud to say that Malaysia has received a lot of compliments for our top down approach in wound care management as Hospital Kuala Lumpur (Prof. Dr. Harikrishna K.R.Nair) and the Institute of Medical Research (Dr. Nazni Wasi Ahmad and Dr. Lee Han Lim) were awarded the World Health Organisation Dr. Lee Jon-Wok Award in 2018. This is great recognition for them and for the Ministry of Health Malaysia. I am also ecstatic that the MSWCP with the support of the Ministry of Health and the Ministry of Tourism, Arts and Culture won the bidding for the World Union of Wound Healing Societies meeting in 2026. Education and collaboration is an important aspect of wound management globally. Congrats to Prof. Dato' Dr. Harikrishna who has just taken over as the President for WUWHS.

I would also like to convey my gratitude to Prof. Dato' Dr. Harikrishna KR Nair, who is also the Director of Hospital Kuala Lumpur for pioneering and expanding the services of the Wound Care Unit. My humble thanks to the MSWCP, IWII, Ministry of Health, speakers, delegates and the industry for organising and supporting this wonderful conference.

On behalf of the Ministry of Health, I would like to congratulate Prof. Dato' Dr. Harikrishna and his team for a job well done.

Thank you.

Datuk Seri Dr. Haji Dzulkefly bin Ahmad
Minister of Health Malaysia

**Message From
The Organizing Chairman
Prof. Dato' Dr. Harikrishna K. R. Nair
DMIJ S.I.S KMN**

Dear wound family and friends. Let me welcome you back to the **IWII & 6TH GLOBAL WOUND CONFERENCE 2024**, organised by the Malaysian Society of Wound Care Professionals MSWCP. It has been truly a great journey from the very beginning for the past 26 years. Wound Care was at its infancy. We used to manage diabetic foot ulcers with the two nurses trained in diabetic foot.

Subsequently, I started the Wound Care Unit in the Department of Internal Medicine on the 8th of April 2013. We started with 2725 patients and have grown tremendously. There were approximately 26115 patients last year alone. The Wound Care Unit is now the largest centre in Malaysia.

In addition, the Malaysian Society of Wound Care Professionals MSWCP also has flourished since 2011. We now have coordinators in all states and have organised 15 international conferences and many local conferences such as in the north, central, South, Sarawak and Sabah. The key point is we usually sponsor all the delegates in the local conferences. Meanwhile, we sponsor at least 300 delegates in the global meeting.

The global meeting is a hybrid meeting and we have sponsored people from all over the world. Wound Healing with passion is our theme and we are a non governmental organisation spearheading advance wound management in Malaysia. We have performed 5500 over free dressings for the B40. We also have given wound care kits with advanced wound dressings worth more than 2 million ringgit since the formation of the MSWCP.

Our secretary Dr. Nazni Wasi Ahmad and myself were finally awarded The World Health Organisation, Dr. Lee Jon Wok Memorial award in Public Health in 2018 for our work on maggot therapy during the general assembly of the World Health Organisation. The award is a huge recognition of the work that we have passionately put in to expand wound management to enable our patients to get the best comprehensive standard of care that we can offer.

We now spearhead education in terms of the Certificate Programme known as The Certificate in Clinical Wound Care, the Post grad Diploma in Wound Management and next year the Masters in Wound Care.

Subsequently, we won the Presidency of the World Union of Wound Healing Societies and the next silver jubilee of the WUWHS will be held in the picturesque city of Kuala Lumpur at the Kuala Lumpur Convention Centre from the 23rd to the 27th of September 2026.

This year we have more than 1000 over delegates from around the globe and 2000 delegates online. We have 80 booths and 120 e-posters in this conference.

In addition, let me also thank YB Datuk Seri Haji Dr. Dzulkefly bin Ahmad, Minister of Health Malaysia, YBh. Dato Sri Suriani binti Dato Ahmad, Secretary General of Health, YBhg. Datuk Dr. Muhammad Radzi bin Abu Hassan, Director General of Health Malaysia, YBhg Dato Indera Dr. Nor Azimi binti Yunus, Deputy Director General (Medical), MOH, the Wound Care Unit, Hospital Kuala Lumpur, the Malaysian Society of Wound Care Professionals MSWCP, the International Wound Infection Institute, the Ministry of Health Malaysia, the Corporate Communications Unit Hospital Kuala Lumpur for the overwhelming support all these years and Tan Sri Dato' Seri Dr. Jeffrey Cheah, the founder and chairman of Sunway Group. My heartfelt gratitude to my students and colleagues as well as all the delegates and the industry.

Thank you.

God bless and take care.

Prof. Dato' Dr. Harikrishna K. R. Nair DMIJ S.I.S KMN
Founding President, Malaysian Society of Wound Care Professionals MSWCP
President, World Union of Wound Healing Societies

	5.00 PM	Business Meeting of The WUWHS	Luxor 3 & 4
19th Oct, 2024	5.00 - 6.00 PM	Business Meeting CCWC and MSWCP	Pyramid 3

Day 1 - 18th October 2024

Potential risk and management of foot ulcers in hemodialysis and efficacy of dehydrated human amnion / chorion membrane

Prof. Dr. Sadanori Akita, Japan
 MD, PhD
 Professor-in-Chief, Department of Plastic Surgery, Wound Repair and Regeneration, Fukuoka University, Fukuoka, Japan.

IWCG Lecture - If hospitals will be paid for prevention

Gulnaz Tariq, United Arab Emirates
 RN, Post Grad, BSc, IIWCC, MSc
 Unit Manager for Wound Care Sheikh Khalifa Medical City United Arab Emirates
 Past President WUWHS.

WUWHS Lecture - The global wound journey

Prof. Dr. Harikrishna K. R. Nair, Malaysia
 MD, FRCPI, FRCPE, FCWCS, PhD in Med Sciences, OSH (NIOOSH), OHD (DOH), CMIA (MAL), CHM (USA), ESWT (Austria, Germany), FMSWCP, ICW, PG DIP in Wound Healing and Tissue Repair (Cardiff, UK).
 Director, Kuala Lumpur Hospital
 Head, Wound Care Unit, Kuala Lumpur Hospital
 President, World Union of Wound Healing Societies

IWII Lecture - Wound cleansing Continuum

Terry Swanson, Australia
 NP, MHSc FAWMA, FMACNP
 Nurse Practitioner Wound Management, South West Healthcare, Warrnambool, Victoria, Australia
 Vice Chair at International Wound Infection Institute (IWII)

Stem cells and its derivatives in enhancing wound healing

Prof. Dr. Yur Ren Kuo, Taiwan
 MD, PhD, FACS • Chairman, Department of Surgery; Chief Professor, Plastic Surgery, Kaohsiung Medical University Hospital, Adjunct Professor, Depart. Biological Sciences, National Sun Yat-sen University, President, Taiwan Society for Wound Care.

Recent advances in diabetic foot reconstruction

Prof. Dr. JP (Joon Pio) Hong, Korea
 M.D, Ph.D., M.M.M.
 Department of Plastic Surgery, Asan Medical Center, University of Ulsan College of Medicine, Seoul, Korea.

Day 2 - 19th October 2024

WOUND

Moderator

Dr Sim Chap Hoong, Malaysia
 Doctor of Medicine, MD (UCSI),
 The certificate in Clinical Wound Care (CCWC) (Asian Wound Care Association (AWCA) & The Malaysian Society of Wound Care Professionals (MSWCP))
 Post Graduate Diploma in Wound Care Management (PG Dip Wound Care Management) (Lincoln University)
 Occupational Health Doctor (OHD) (NIOOSH)

VET medicine wound management

Dr. Patricia Paskalia Maharani, Malaysia
 Veterinarian
 Animal Central Veterinary Clinic, Kuching, Sarawak, Malaysia

Oral presentations

- Pediatrics
- Infection

Dr. Serge Bohbot, France
 MD, MSc
 Global Medical Affairs Director at Laboratoires URGO Medical.

Day 2 - 19th October 2024

WOUND TRACK

Moderator / APADLP Silver Jubilee

Assoc. Prof. Dr. Aziz Nather, Singapore
 MBBS (Sing), FRCS (Ed), FRCS (Glas), MD (Sing), FAMS (Sing)
 Senior Consultant, Division of Foot and Ankle Surgery
 Chairman of NUH Diabetic Foot Team • Director of NUH Tissue Bank

Secretome Gel as Innovative Strategy to Accelerate Epithelization on Wound Closure

Prof. Dr. David S. Perdanakusuma, Indonesia
 dr., Sp.BP-RE(K) • Faculty of Medicine, Padjadjaran University, Bandung
 Plastic Surgery Specialist, Faculty of Medicine, University of Indonesia, Jakarta
 Doctorate of Medical Sciences Postgraduate Program Universitas Airlangga Surabaya
 Chairman of the Indonesian College of Plastic, Reconstructive and Aesthetic Surgery

Infected wound treatment

Assoc. Prof. Dr. Nguyen Anh Tuan, Vietnam
 MD, PhD
 Department of Plastic and Cosmetic Surgery,
 Wound Care Center,
 Ho Chi Minh City, Vietnam.

IWII

Wound Infection and the Wound Infection Continuum

Moderator / The Wound Infection Continuum: Validation of Signs and Symptoms

Prof. Dr. Kerlyn Carville, Australia
 RN, PhD, STN(Cred), CF, Fellow Wounds Australia
 Professor Primary Health Care & Community Nursing Silver Chain Group and
 Curtin University, Perth, Western Australia, Australia

Where does pathogenicity start and when do we commence topical treatment?

Trish Idensohn, South Africa
 Wound Nurse Specialist in private practice, CliniCare, with a Masters in Science degree in Clinical Skin Integrity and Wound management from the University of Hertfordshire.
 Wound consultant and regional, national and international wound lecturer.
 Owner of CliniCare, wound+stoma, mom+baby clinic, Ballito, South Africa.

WOUND

Moderator

Assoc. Prof. Dr. Aziz Nather, Singapore
 MBBS (Sing), FRCS (Ed), FRCS (Glas), MD (Sing), FAMS (Sing)
 Senior Consultant, Division of Foot and Ankle Surgery
 Chairman of NUH Diabetic Foot Team • Director of NUH Tissue Bank

Development of advanced wound care in resource limited nations, Maldives

Dr. Mohamed Waheed, Maldives
 Consultant in General Surgery, Indira Gandhi Memorial Hospital.

Ostomy care and ERAS pathways to the fountain of prevention and healing

Rhyan A. Hitalla, Philippines
 Enterostomal Therapist (WCET), International Delegate (WCET)
 Specialized Trainer (ICW/EWMA), Clinic Nurse Director.
 Stoma & Complex Wound Care Clinic, Medical City Hospital, Manila.

Complications of Stoma

Madam Mariam Mohd Nasir, A.M.N., Malaysia
 Cert ICW (Hamburg, Germany), Cert GNLI (Geneva, Switzerland)
 MBA (Mal/UK) BSc (Hons) Mal WOCNEP (Hong Kong)
 Registered Midwife, Registered Nurse,
 Director & Nursing Consultant, M&T Network Consultancy

Day 2 - 19th October 2024

WOUND TRACK

Moderator

Dr. Nyana Kalaiwani Krishnan, Malaysia
 Medical Officer at Wound Unit Hospital Shah Alam, Selangor.

Hand and microsurgery

Assoc. Prof. Dr. Josephine Ip, Hong Kong
 MBBS, FRACS, FRCS, FHKAM
 Associate Professor and Chief Department of Orthopaedic & Traumatology,
 University of Hong Kong
 Chief of Division of Hand & Foot Surgery in Department of Orthopaedics & Traumatology,
 University of Hong Kong
 Founder of the Hong Kong Society for Diabetic Limb Care
 President-Elect of Hong Kong Society for Surgery of the Hand.

Surgical reconstruction in DFU

Dr. Mohammad Yusoff Bin Mohd Shariff, Malaysia
 MBBS (MAHE), M.ORTHO (IIUM)
 Orthopaedic Surgery
 Hospital Tuanku Jaafar, Jalan Rasah, Bukit Rasah, 70300 Seremban,
 Negeri Sembilan Darul Khusus, Malaysia

Role of topical oxygen in DFU

Prof. Dr. Yur Ren Kuo, Taiwan
 MD, PhD, FACS • Chairman, Department of Surgery;
 Chief Professor, Plastic Surgery, Kaohsiung Medical University Hospital,
 Adjunct Professor, Depart. Biological Sciences, National Sun Yat-sen University,
 President, Taiwan Society for Wound Care.

IWII

Moderator

Prof. Dr. Kerlyn Carville, Australia
 RN, PhD, STN(Cred), CF, Fellow Wounds Australia
 Professor Primary Health Care & Community Nursing Silver Chain Group and Curtin
 University, Perth, Western Australia, Australia

Wound Infection: Who's at risk?

Dr. David Keast, Canada
 BSc, MSc, Dip Ed, MD, CCFP, FCFP(LM)
 Medical Director of the Outpatient Chronic Wound Management Clinic, Parkwood Institute,
 London, Canada
 Clinical Adjunct Professor of Family Medicine, Schulich School of Medicine and Dentistry,
 Western University, London, Canada
 Associate Scientist in the Parkwood Research Institute, part of the Lawson Health Research
 Institute, London, Canada

Biofilm update: New or old paradigms and treatments

Prof. Thomas Bjarnsholt, Denmark
 DMSc, PhD,
 Professor, Department of Immunology and Microbiology, University of Copenhagen,
 Copenhagen, Denmark

Importance of pH

Prof. Steven Percival, UK
 BSc, PGCE, MSc, MSc, PhD
 Professor (hon) at The University of Manchester, Manchester, England, United Kingdom
 Chief Executive Officer of 5D Health Protection Group Ltd
 Board Member, International Wound Infection Institute
 Industrial Advisory Board Member, National Biofilm Innovation Centre
 Director, Centre of Excellence in Biofilm Science (CEBS)

More than just bacteria

Assoc. Prof. Dr. Lindsay Kalan, Canada
 PhD,
 Assistant Professor, Medical Microbiology & Immunology,
 University of Wisconsin, USA

Day 2 - 19th October 2024

WOUND

Moderator

Prof. Dr. Yur Ren Kuo, Taiwan

MD, PhD, FACS • Chairman, Department of Surgery; Chief Professor, Plastic Surgery, Kaohsiung Medical University Hospital, Adjunct Professor, Depart. Biological Sciences, National Sun Yat-sen University, President, Taiwan Society for Wound Care.

Diagnostic and therapeutic principles of chronic wounds

Prof. Dr. Ting Xie, China

MD, PhD • Consultant Surgeon and Director of Wound Healing Center at Emergency Dept., Shanghai Ninth People's Hospital Affiliated to Shanghai Jiao Tong University School of Medicine. The Vice President of Chinese Tissue Repair Society (CTRS), Shanghai, China.

Challenges of Clinical Integration for wound care in low income countries: Sharing Myanmar Experiences

Asst. Prof. Tin Myo Han, Myanmar

MBBS, M.Med.Sc (Public Health), MPH (Belgium), PhD (Malaysia), Diploma in Family Medicine (Malaysia); Diploma in Statistics (UK), Public Health Physician / Diabetic Foot Care, Swan Het Specialist Clinic and Grand Hanthar International Hospital, Yangon, Myanmar.

Challenges in Wound Care Education: Sharing Myanmar Experiences

Prof. Dr. Myint Thaug, Myanmar

M.B.B.S, M. Med. Sc, Dr. Med. Sc (Ortho), Dip. Med. Ed, F.I.C.S Emeritus Professor in Orthopaedics, Technical Advisor in Orthopaedics, University of Medicine, Yangon, Myanmar.

WOUND TRACK

Moderator

Assoc. Prof. Dr. Geoffrey Sussman, Australia

OAM, JP, PhC, FACP, FAIPM, FPS, FAWMA Chairman Wounds Australia, Associate Professor of Wound Care Monash Institute for Health and Clinical Education, Faculty of Medicine, Nursing and Health Science, Monash University, Melbourne.

Sugar sugar sugar

Prof. Dr. Walaa Khalifa, Egypt

Professor in Endocrinology and Diabetes Vice President of South Egypt Association of Endocrinology And Diabetes

Dermal matrices

Dr. Debora C. Sanches Pinto, Brazil

Plastic surgeon, working in cosmetic surgery, repair, complex wounds and burns Co-founder and president of the Brazilian Society for Advanced Wound Care (Sobratafe) Master's Degree in Plastic Surgery and Burns from the Faculty of Medicine of the University of São Paulo, Brazil.

Holistic Management of Wound-Related Pain

Dr. Nicoletta Frescos, Australia

MPH B. Appl. Sci (Podiatry) Clinical Education Coordinator / Lecturer, Department of Podiatry, La Trobe University, Victoria, Australia.

Day 2 - 19th October 2024

IWII TRACK

More than cleansing when doing a wound dressing procedure

Moderator / Debridement: Options for everyone

Donna Larsen, Australia
 RN NP BN PGDip (Clin Spec) MSc (Nur)
 Nurse Practitioner Royal Perth Bentley Group, Perth, Australia
 Board Member for the Australian Journal, Wound Practice and Research
 Past secretary for Wounds Australia
 Past president for Wounds Australia WA Branch and Past secretary for the IWII

Latest in wound technology

Dr. Paulo Alves, Italy
 RN, MSc, PhD
 Assistant Professor of Nursing and Tissue Viability,
 Catholic University of Portugal, Porto, Portugal

Open but unused product: What do we do with it?

Terry Swanson, Australia
 NP, MHSc FAWMA, FMACNP
 Nurse Practitioner Wound Management, South West Healthcare,
 Warrnambool, Victoria, Australia
 Vice Chair at International Wound Infection Institute (IWII)

Day 3 - 20th October 2024

Association of dermal matrices, extracellular bioscaffolds and cleanse choice therapy for extensive complex wounds

Dr. Debora C. Sanches Pinto, Brazil
 Plastic surgeon, working in cosmetic surgery, repair, complex wounds and burns
 Co-founder and president of the Brazilian Society for Advanced Wound Care (Sobratafe)
 Master's Degree in Plastic Surgery and Burns from the Faculty of Medicine of the University of São Paulo, Brazil.

Research on foot ulcer characteristics and cultured fibroblast activity in DFU”

Dr. Pham Quang Thinh, Vietnam

Hidradenitis suppurativa: Challenges in management and treatment

Dr. Nguyen Van Anh, Vietnam

Complicated skin and soft tissue management

Dr. Luinio S. Tongson, Philippines
 MD, FPCS, FPALES, CWSP, EdD, MMHoA
 Director, Dr. Jame G. Dy Wound Healing & Diabetic Foot Center, Chinese General Hospital & Medical Center, Manila. Vice President, Philippine Wound Care Society.

Pressure injury revisited

Prof. Dr. Kerlyn Carville, Australia
 RN, PhD, STN(Cred), CF,
 Professor of Primary Health Care, Silver Chain and Curtin Health Innovation Research Institute,
 Curtin University, Perth, Australia

Day 3 - 20th October 2024

Moderator

Dr. Nicoletta Frescos, Australia
 MPH B. Appl. Sci (Podiatry)
 Clinical Education Coordinator / Lecturer, Department of Podiatry,
 La Trobe University, Victoria, Australia.

Prevention in Pressure injury

Major Jaraspas Wongviseskarn, Thailand
 APN, ETN
 Head of Urodynamic and Advance Wound Care Clinic,
 Phramongkutklao Hospital, Ratchatewi, Bangkok.

Case discussion

Dr. Nalini Campillo Vilorio, Dominican Republic
 Diabetologist and clinical nutritionist Regional Chair of the D-Foot International
 SACA Region Coordinator of the Diabetic Foot Group of the Latin American Diabetes
 Association (ALAD)
 President of the Dominican Society of Diabetic Doctors
 Professor of the Residences Programme of the College of Medicine at Intec and Unibe,
 Dominican Republic

Ward rounds with the diabetologist

Datuk Dr. Zanariah Binti Hussein, Malaysia
 MBBS (Malaysia), MRCP(UK)
 Consultant Endocrinologist and Physician at Hospital Putrajaya.
 Head of the Endocrinology Subspecialty Service.

Saving feet, saving lives: the crucial role of podiatry in preventing and treating diabetes-related foot disease

Dr Michelle Kaminski, Australia
 BPod (Hons), PhD, Discipline of Podiatry,
 School of Allied Health, Human Services and Sport,
 La Trobe University, Melbourne, Australia.

SYMPOSIUM

Day 1 - 18th October 2024

1A - ADVANCE THERAPIES

Moderator / 3D Printing and Bactetiophage therapy

Assoc. Prof. Dr. Geoffrey Sussman, Australia
 OAM, JP, PhC, FACP, FAIPM, FPS, FAWMA
 Chairman Wounds Australia, Associate Professor of Wound Care
 Monash Institute for Health and Clinical Education,
 Faculty of Medicine, Nursing and Health Science, Monash University, Melbourne.

The effect of phototherapy in enhancing diabetic wound healing

Prof. Dr. Yur Ren Kuo, Taiwan
 MD, PhD, FACS • Chairman, Department of Surgery;
 Chief Professor, Plastic Surgery, Kaohsiung Medical University Hospital,
 Adjunct Professor, Depart. Biological Sciences, National Sun Yat-sen University,
 President, Taiwan Society for Wound Care.

Wound reconstruction for all DFUs

Dr. Feng Jia Jun, Singapore
 MD (S'pore), MRCS (Edinburgh), MMED (Surgery), FAMS (Plastic Surgery) Consultant
 Consultant Plastic Surgeon in Sengkang General Hospital, Singapore
 Clinical Lecturer, Yong Loo Lin School of Medicine, National University of Singapore
 Clinical Instructor, Duke-NUS Medical School, Singapore

2A - DFU TRACK

Moderator

Dr Michelle Kaminski, Australia
 BPod (Hons), PhD, Discipline of Podiatry,
 School of Allied Health, Human Services and Sport,
 La Trobe University, Melbourne, Australia.

Update of the global DFU study

Dr. Zulficarali G. Abbas, Tanzania
 MBBS, MMED, DTM&H (UK), FRCP (Glasgow), FRCP(London),
 Consultant Physician, Endocrinologist, Diabetologist,
 President, D-Foot International,
 Chairman, Pan-African Diabetic Foot Study Group.

Application of AI in wound care

Ir. Prof. Dr. Mohammad Faizal Bin Ahmad Fauzi, Malaysia
 PEng, CEng, SMIEEE, MIEM
 Professor, Faculty of Engineering, Multimedia University, Malaysia
 Head, MMU-UKM-IMU AI4DP Research Excellence Consortium

Application of Metriderm for diabetic foot ulcers

Prof. Dr. JP (Joon Pio) Hong, Korea
 M.D, Ph.D., M.M.M.
 Department of Plastic Surgery, Asan Medical Center,
 University of Ulsan College of Medicine, Seoul, Korea.

3A

Launch of the Wound Cleansing Document

Moderator / Overview of Document

Terry Swanson, Australia
 NP, MHSc FAWMA, FMACNP
 Nurse Practitioner Wound Management, South West Healthcare,
 Warrnambool, Victoria, Australia
 Vice Chair at International Wound Infection Institute (IWII)

Day 1 - 18th October 2024

3A

Terminology and processes

Adj. Prof. Dr. Emily Haesler, Australia

PhD, P Grad Dip Adv Nurs (Gerontics), BN, Fellow Wounds Australia
Adjunct Professor, Curtin Health Innovation Research Institute, Curtin University, Perth, Australia
Adjunct Associate Professor, Australian Centre for Evidence Based Aged Care
La Trobe University, Melbourne, Australia;
Committee Board, International Wound Infection Institute
Committee Board, World Alliance for Wound and Lymphoedema Care

Importance of wound cleansing

Prof. Dr. Kerlyn Carville, Australia

RN, PhD, STN(Cred), CF, Fellow Wounds Australia
Professor Primary Health Care & Community Nursing Silver Chain Group and Curtin University,
Perth, Western Australia, Australia

1B - ORAL PRESENTATION (3)

Moderator / Pediatric burns

Assist. Prof. Dr. Kusuma Chinaronchai, Thailand

Assistant Professor and Instructor of Trauma and Burn Surgery division of
Surgical department, Siriraj hospital

Burn updates

Prof. Dr. Pornprom Muangman, Thailand

MD, PhD
Professor of surgery and chief of the Burn Unit, Division of Traumatology
Chairman of the Research and Scientific Program, and program director of
Postgraduate Surgical Training at the Department of Surgery within Siriraj Hospital,
Mahidol University, Thailand.

Role of Secretome from Mesenchymal Stem Cell in Wound Healing

Prof. Dr. Azizi b Ayob

DIS (IIUM), MD (UKM), PhD (IIUM), CIPM
Chief Executive Officer and Medical Director, Medical Pathology Laboratories,
Healthcare and Project Management

Case discussion

Dr. Shah Jumaat Mohd Yussof, Malaysia

MB BCh BAO (Ireland), MRCS (Ireland), MSurg (PlasticSurg) (USM)
Consultant Plastic and Reconstructive Surgeon, Head of Plastic Surgery,
Hospital Al-Sultan Abdullah UiTM
President, Malaysian Society of Plastic & Reconstructive Surgery
Senior Fellow, USMARI Research Centre

Case discussion

Dr. Mohd Shahrul Bin Suondoh

MD (UKM) MS Plastic Surgery (USM)
Plastic & Reconstructive Surgeon
Department Of Plastic
And Reconstructive Surgery Hospital Sultanah Aminah Johor Bahru, Johor, Malaysia

2B - DFU TRACK 2

Moderator / Latest adjunctive therapies in DFU management

Dr. Luinio S. Tongson, Philippines

MD, FPCS, FPALES, CWSP, EdD, MMHoA
Director, Dr. Jame G. Dy Wound Healing & Diabetic Foot Center, Chinese General Hospital
& Medical Center, Manila. Vice President, Philippine Wound Care Society.

Enhanced Healing with Negative Pressure: Exploring Instillation and Closed Incision NPWT for Acute and Chronic Wounds

Dr. Arya Tjipta, Indonesia

MD, Ph.D
Plastic Surgeon at RSUP H.Adam Malik, Kecamatan Medan Area, North Sumatra, Indonesia

Day 1 - 18th October 2024

2B - DFU TRACK 2

Case discussions

Dr. Anantha Kumar Ramachandran, Malaysia
 MBBS, MPH (UMS), CCWC (Malaysia)
 Head, The Wound and Stoma Care Unit,
 Hospital Queen Elizabeth II,
 Kota Kinabalu, Sabah, Malaysia.

Case discussions

Dr. Sashitharan A/L V Ampalakam, Malaysia
 MD (Kursk State Medical University, Russia), PGDip Wound Care Management Program
 Lincoln University, CCWC (Malaysia)
 Orthopaedic and Wound Care Unit, Hopsital Bukit Mertajam, Penang

3B - IWII TRACK 2

Antiseptics and Antibiotics

Moderator / Antibiotics for wound infection

Assoc. Prof. Dr. Geoffrey Sussman, Australia
 OAM, JP, PhC, FACP, FAIPM, FPS, FAWMA
 Chairman Wounds Australia, Associate Professor of Wound Care
 Monash Institute for Health and Clinical Education,
 Faculty of Medicine, Nursing and Health Science, Monash University, Melbourne.

**Antiseptic and Antimicrobial Stewardship:
 Are we over prescribing?**

Prof. Karen Ousey, United Kingdom
 PhD, RGN, FHEA, CMgr MCM
 Professor of Skin Integrity, Director for the Institute of Skin Integrity and Infection
 Prevention, University of Huddersfield, Huddesfield, United Kingdom.
 Vice-Chair, Commonwealth Wound Care Resource Alliance

Antiseptics

Suzie Seaman, USA
 NP, MSN, CWCN, CWS
 Nurse Practitioner, Wound Clinic, Family Health Centers of San Diego, San Diego,
 California, USA

Day 2 - 19th October 2024

4A

**Moderator / Evidence based vascular
 interventions**

Prof. Dr. Liew Ngoh Chin, Malaysia
 MB BS (Andhra) FRCS (Edin) MS Surg (UKM) AM (Mal)
 Consultant General and Vascular Surgeon,
 Subang Jaya Medical Centre, Selangor, Malaysia

Vascular principles

Dr. Naresh Govindarajanthran, Malaysia
 MD (UKM), MS (UKM),
 Fellowship in Vascular Surgery (Mal),
 Fellowship in Vascular Surgery (Adelaide, Australia)
 Consultant Vascular and Endovascular Surgeon,
 Petaling Jaya, Selangor, Malaysia

**Need for vascular assessment in
 Lower extremity wound**

Dr. Saritphat Orrapin, Thailand
 FRCST (General), FRCST (Vascular), Dip (Clin Epidemiol)
 Vascular Surgery Division, Department of Surgery, Faculty of Medicine,
 Thammasat University, Pathum Thani, Thailand

Day 2 - 19th October 2024

5A

Moderator / Updates in NPWT in DFU

Assoc. Prof. Dr. Aziz Nather, Singapore
 MBBS (Sing), FRCS (Ed), FRCS (Glas), MD (Sing), FAMS (Sing)
 Senior Consultant, Division of Foot and Ankle Surgery
 Chairman of NUH Diabetic Foot Team • Director of NUH Tissue Bank

IWGDF guidelines on Wound Healing

Prof. Dr. Frances Game, UK
 BSc(Hons), MBBCh(Hons), FRCP
 Clinical Director R&D, University Hospitals of Derby and Burton NHS Foundation Trust
 Clinical Director Derby Clinical Trials Support Unit, University Hospitals of Derby and Burton NHS Foundation Trust • Honorary Professor, University of Nottingham
 Consultant Diabetologist, University Hospitals of Derby and Burton NHS Foundation Trust
 Clinical Director for East Midlands Diabetes with Vascular Diseases NHS England

Biotherapy in wounds in Hong Kong

Assoc. Prof. Dr. Josephine Ip, Hong Kong
 MBBS, FRACS, FRCS, FHKAM
 Associate Professor and Chief Department of Orthopaedic & Traumatology, University of Hong Kong
 Chief of Division of Hand & Foot Surgery in Department of Orthopaedics & Traumatology, University of Hong Kong
 Founder of the Hong Kong Society for Diabetic Limb Care
 President-Elect of Hong Kong Society for Surgery of the Hand.

6A

Assessment of tissue and Management of abnormal tissue

Moderator

Terry Swanson, Australia
 NP, MHSc FAWMA, FMACNP
 Nurse Practitioner Wound Management, South West Healthcare, Warrnambool, Victoria, Australia
 Vice Chair at International Wound Infection Institute (IWII)

Tissue Identification

Donna Larsen, Australia
 RN NP BN PGDip (Clin Spec) MSc (Nur)
 Nurse Practitioner Royal Perth Bentley Group, Perth, Australia
 Board Member for the Australian Journal, Wound Practice and Research
 Past secretary for Wounds Australia
 Past president for Wounds Australia WA Branch and Past secretary for the IWII

Slough what is it and is it important?

Assoc. Prof. Dr Lindsay Kalan, Canada
 PhD,
 Assistant Professor, Medical Microbiology & Immunology,
 University of Wisconsin, USA

Management of abnormal tissue

Suzie Seaman, USA
 NP, MSN, CWCN, CWS
 Nurse Practitioner, Wound Clinic, Family Health Centers of San Diego, San Diego, California, USA

4B

Moderator / Back to basics in skin preparation of surgical procedures

Johlene Sander, South Africa
 Nursing Practitioner at Private Company,
 City of Cape Town, Western Cape, South Africa

Management of hard to heal DFU with topical oxygen therapy

Ms. Jean Lau Po Lam, Hong Kong

Day 2 - 19th October 2024

4B

MASD: Quest for the healing barrier

Rhyan A. Hitalla, Philippines

Enterostomal Therapist (WCET), International Delegate (WCET)
Specialized Trainer (ICW/EWMA), Clinic Nurse Director.
Stoma & Complex Wound Care Clinic, Medical City Hospital, Manila.

5B

Moderator / Orthosis and Prosthesis

Assoc. Prof. Dr. Gulapar Srisawasdi, Thailand

M.D., C.Ped.
Department of Rehabilitation Medicine, Faculty of Medicine Siriraj Hospital,
Mahidol University, Bangkok.
Former Vice President, D-Foot International

Pediatric wound management

Prof. Dr. Guido Ciprandi, Italy

MD, Ph.D
Specialist in thoracic surgery and pediatric surgery
Department of Surgery, UOC of plastic and maxillofacial surgery of the Bambino Gesù
Pediatric Hospital of Rome.
Professor at the Universities of Rome, Florence and Milan.

Wound Radiology

Dr. Poonsuta Nava-apisak, Thailand

Faculty of Medicine Siriraj Hospital, Mahidol University

6B

Pain and the whole person

Moderator

Assoc. Prof. Dr. Geoffrey Sussman, Australia

OAM, JP, PhC, FACP, FAIPM, FPS, FAWMA
Chairman Wounds Australia, Associate Professor of Wound Care
Monash Institute for Health and Clinical Education,
Faculty of Medicine, Nursing and Health Science, Monash University, Melbourne.

Pain Assessment

Prof. Dr. Kerlyn Carville, Australia

RN, PhD, STN(Cred), CF, Fellow Wounds Australia
Professor Primary Health Care & Community Nursing Silver Chain Group and Curtin University,
Perth, Western Australia, Australia

Pain Management

Dr. Kimberly Leblanc, Canada

PhD, RN, NSWOC, WOCC (C), FCAN
Academic Chair at Nurses Specialized in Wound Ostomy and Continence Canada

Whole person assessment and care

Assoc. Prof. Dr. Nicola Waters, Canada

PhD, MSc (Wound Healing and Tissue Repair) RN
Associate Professor in the School of Nursing at Thompson Rivers University,
Kamloops, BC, Canada
Secretary of the Canadian Association of Wound Care (CAWC).

Day 3 - 20th October 2024

Surgical options in wound management

Assoc. Prof. Dr. Aziz Nather, Singapore
 MBBS (Sing), FRCS (Ed), FRCS (Glas), MD (Sing), FAMS (Sing)
 Senior Consultant, Division of Foot and Ankle Surgery
 Chairman of NUH Diabetic Foot Team • Director of NUH Tissue Bank

Implant salvage

Dr. Feng Jia Jun, Singapore
 MD (S'pore), MRCS (Edinburgh), MMED (Surgery), FAMS (Plastic Surgery) Consultant
 Consultant Plastic Surgeon in Sengkang General Hospital, Singapore
 Clinical Lecturer, Yong Loo Lin School of Medicine, National University of Singapore
 Clinical Instructor, Duke-NUS Medical School, Singapore

Community and disaster wound management initiatives

Widasari Sri Gitarja, Indonesia
 Bachelor of Nursing, Certified on Wound Ostomy and Continent Clinical Nurse Sp.,
 Lecturer, Researcher, Author and Founder
 Owner and CEO of WOCARE Center Indonesia – Corporate University of WOCARE
 Indonesia and Director Program of Indonesian ETNEP– WCET

Enhancing wound healing with natural sources: challenging wounds treated with an ointment rich in Pufas (Polyunsaturated fatty acids) and antimicrobial peptides from beeswax. Clinical experience.

Prof. Dr. Irina Saretzky, Argentina
 Wound care specialist, Head of the Wound Healing Section Dermatology Department,
 Hospital de Clínicas José de San Martín, Buenos Aires University. UBA - Argentina

UrgoClean Ag

The only anti-biofilm silver dressing that supports continuous debridement of slough

Polyabsorbent fibres

Polyabsorbent fibres provide an efficient **debridement of slough** (electrostatic action)²

TLC-Ag technology

Silver ions provide **fast & broad-spectrum antimicrobial efficacy**¹

Combined cleaning and antimicrobial action disrupt biofilms and prevent their reattachment^{3,4}

UrgoClean Ag

- ✓ Supports continuous debridement of slough
- ✓ Effectively fights against local infection
- ✓ Provides & maintains moist environment
- ✓ Protects the surrounding skin

Can be used with a secondary dressing

Can be cut

Can be used under compression

Can be used in a cavity wound

Atraumatic & painfree removal

DEBRIX®

A NEW DISRUPTIVE BIOFILM ELIMINATION METHOD

- REMOVAL OF INFECTION**
- CATALYSATION OF WOUND HEALING PROCESS**
- EASY TO USE**
- CE 1282**

DEBRIX® has a strong hygroscopic action by instantly capturing water molecules from any type of biological material.

As the biofilm on a wound consists out of 98% water, the rapid reaction denatures the proteins, extracellular matrix and glycan-like structures in the microbial constituents inside the biofilm, giving bacteria, fungi and viruses no chance to survive and hereby removing the infection.

3M™ Veraflo™ Therapy: Efficient. Effective. Economical.

A systematic review of comparative studies and meta-analysis of 13 studies and 720 patients with various wound types showed Veraflo Therapy delivered significant advantages over control, which included V.A.C.® Therapy.^{1,2}

- >30%** Fewer surgical debridements^{1,2} (1.77 debridements vs 2.69, p=0.008)^{1,2}
- 2x** Wounds were ready for closure almost twice as fast^{1,2} (7.88 days vs 14.36 days, p=0.003)^{1,2}
- 2.39x** Wounds were 2.39 times more likely to close¹ (p=0.01)¹
- >50%** Reduced length of therapy^{1,2} (9.88 days vs 21.8 days, p=0.02)^{1,2}
- 4.4x** Greater odds of reducing bacterial count¹ (p=0.003)¹

"We never stop solving for you." 3M Health Care is now Solventum, a new healthcare company built on a legacy of innovation and dedicated to enabling better, smarter, safer healthcare to improve lives.

With our scientifically engineered negative pressure wound therapy solutions and support, you can reimagine your approach to wound care. The 3M NPWT portfolio provides a wide range of wound management options from inpatient to outpatient settings, which have been shown in comparative clinical studies to help reduce the cost of care and improve patient outcomes. Our solutions come in all shapes and sizes—ranging from durable devices with multiple therapy modalities to portable and disposable units that can fit in the palm of your hand (3M™ Veraflo™ Therapy, 3M™ V.A.C.® Therapy and 3M™ Snap™ Therapy).

STAND OUT with Certificate in Clinical Wound Care

The Certificate in Clinical Wound Care is the only programme of its kind in Malaysia which provides healthcare practitioners with the specialised knowledge and proficiency required to work in a practice setting with patients impacted by complex wounds resulting from a variety of disease pathologies and factors.

This multi-faceted Certification programme comprises of 5 learning modes starting from online content delivery, 2 days of intensive workshop, case study, conference participation right up to examination.

Learners will have the opportunity to interact with faculty members who are expert in the area of wound management. Upon completing this programme, the participant will be thoroughly equipped with a comprehensive knowledge on assessment of a variety of wounds as well as forming and implementing an effective wound management strategy. The course has been reviewed by local and international experts and certified by the following boards:

- Malaysian Society of Wound Care Professionals
- Asian Wound Care Association

Wound Management Programme Malaysia
