

10th National Facial Plastic Surgery Course

CELEBRATING THE WONDER WOMEN IN FPS

DATE : APR 30th - MAY 3rd 2024

Objectives

- Facial plastic and reconstructive surgery is a recognized sub speciality with suitable contributions by plastic surgeons, otolaryngologists, ophthalmologists, maxillofacial surgeons and dermatologists in an orchestrated fashion.
- Facial reconstructive and cosmetic surgery India Trust (FRCSI®) would like to invite surgeons interested in the science and art of facial plastic and cosmetic surgery to partake in this unique course which comprehensively creates a foundation for further clinical expertise in facial plastic surgery.
- The course has been designed to equip surgeons with the most desirable surgical skills in real time. It focuses more on the daily needs of a facial aesthetic surgeon and gives them practical Hands-On experience rather than presentations. The course has been designed into four days.
- We have chosen the best of the faculty to train you in the particular topic of Facial Plastic Surgery, hoping to transfer surgical skills to you during the course. All this has been planned into 3 days to give you the most effective exposure to renowned International and National faculty from all disciplines and various schools of thought. We sincerely believe in helping you gain insights into the dynamic concepts of facial beautification surgery.

History

A group of committed individuals came together in 2011 to improve the branch of Head & Neck surgery by advancing the knowledge and skills of surgeons in Facial Aesthetic & Reconstructive Surgery.

A course was designed to teach basic and advanced Facial Plastic Surgery in real time. Year after year the course is being conducted with eminent faculties around the world & India. The National Facial Plastic Surgery Course has now become a brand in itself and has trained close to 600+ delegates in the last 10 years.

This is the only course in Indian subcontinent which involves real time training in Facial Plastic Surgery by hands on mode. The course has become a sought-after educational avenue for candidates from the specialty of Plastic Surgery, Otolaryngology, Ophthalmology, maxillofacial and dermatology to train after their base specialties.

The course is set as per the standard followed internationally and aims to train and equip surgeons keeping in mind ever expanding cosmetic surgery industry. The course is unique because it has a faculty to student ratio of 1:1. The course is a stepping stone towards higher surgical training in the form of guided observer-ship and International Federation approved Fellowships.

Facial Plastic Reconstructive Surgery has become one of the predominant subspecialties, thanks to increasing awareness, expendable incomes and advancing techniques. This science had remained the privilege of a few and hence Facial Reconstructive & Cosmetic Surgery India decided to launch this course to make this education available to all the specialist surgeons.

Course Benefits

Dissecting Surgeon

1. Hands on training shall be provided on Fresh frozen cadavers imported from USA with special embalming techniques have been utilised to make the cadavers suitable for skin and soft tissue dissection
2. A Brief Course material encompassing all the techniques shall be handed over to the dissectors at the start of the course and also shared with them via Email prior to attending the course, so that they can come prepared for the same.
3. Dissectors will be supported to help develop the subspeciality in their respective cities and states. The dissectors shall also benefit from continued personal guidance and monitoring in order to develop their facial plastic surgery practice by the international faculty for next 1 year.
4. A log book maintenance is desirable following the course for future validation and fellowship training and international accreditation.
5. One cadaver specimen will be allotted to 2 participants for optimum utilisation
6. Certification as Dissector shall be provided at the end of the course.

Observer

1. Observer shall be attending the course as audience in the lab.
2. A Brief Course material encompassing all the techniques shall be handed over to the observers at the start of the course and also shared with them via email prior to attending the course, so that they can come prepared for the same.
3. Certification as Observer shall be provided at the end of the course.

Course Highlights

- First Course in India to cover all the aspects of Sub-speciality
- Teacher to student ratio 1:1
- Real time surgical simulation on Fresh Frozen cadavers
- Unmatched Hands on surgical infrastructure
- Instrument manufacturers in stalls help to set up practise
- Opportunity to shape a career in Facial Plastic and Reconstructive Surgery.
- Maximum time for hands on 2- 3 hrs given additionally for catchup Dissection
- Chance to know about Fellowship Process and Fellowship faculty
- Endowment Freeship for Postgrads interested in FPS
- Walk Through Allowance (unregistered delegates) during select hours to visualise Course conduct

NOTE: The program is not a replacement for formal training in facial plastic and reconstructive surgery. We have an International Federation of Facial Plastic Surgery Societies recognized fellowship for one-year. Kindly mail us for further details.

Explore Bangalore

Bengaluru, formerly known as Bangalore, is the capital of the state of Karnataka. It is located in southern India on Deccan Plateau. The city is a mix of traditions and modernity. The various ethnicities residing in it celebrate their cultural festivities while engaging with the recent upsurge in its café culture and pub-hopping. It is often referred to as the 'Silicon Valley' being the hub of IT development in India.

PLACES TO SEE AROUND BENGALURU :

- Lalbagh Botanical Garden
- Cubbon Park
- Bangalore Palace
- Nandi Hills
- Kadu Malleshwara Temple
- Attara Kacheri
- Gavi Gangadhareshwara Temple
- Big Bull Temple

Venue : ITC Gardenia

Our Accommodation Partner

ITC Hotels' Responsible Luxury journey started at ITC Gardenia in 2009 when it was conferred the highest rating for green buildings in the world - the LEED India Platinum Rating. This recognition made it Asia's first platinum rated hotel.
