WELCOME MESSAGE FROM **ORGANISING CHAIRMAN**

Dear Esteemed Colleagues and Friends,

It is with immense pleasure and anticipation that I extend a heartfelt welcome to all participants of the **Malaysian Society of Interventional Radiology Annual Scientific Meeting 2024**, set against the vibrant city of Kuching!

Set on 17th to 19th October 2024, our esteemed society will convene at the new Sheraton Kuching, where minds will converge, ideas will flourish, and new possibilities in IR will be explored.

Under the theme "**Navigating New Horizons in Interventional Radiology**," this year's meeting promises to be an exhilarating journey of discovery, innovation, and collaboration. Together, we will chart a course towards the future of IR, embracing the challenges and opportunities that lie ahead.

As the organising chairman, I am deeply grateful for the dedication and support of the organising committee, industry partners, and delegates. Your contributions are instrumental in shaping the success of our meeting and advancing the IR practice in Malaysia and beyond.

Beyond the enriching scientific programme, I encourage you to take full advantage of your time in Kuching. Immerse yourself in the dynamic culture, savour the culinary delights, and explore the natural wonders that this vibrant city has to offer. Let Kuching inspire and rejuvenate you as we work together to push the boundaries as a whole.

I cannot wait to welcome all of you to the Malaysian Society of Interventional Radiology Annual Scientific Meeting 2024 in the dynamic city of Kuching. May our time together be marked by fruitful discussions, meaningful connections, and shared aspirations.

Warm regards,

Dhayal Balakrishnan

CALL FOR ABSTRACT

Abstract Submission Guidelines

| The scientific committee welcomes the submission of scientific abstracts.

Authors are invited to submit abstracts in the following areas of interest:

- Diagnostic imaging pertaining to IR
- Neurointervention
- Interventional Oncology
- Hepatobiliary Intervention
- Musculoskeletal Intervention
- Paediatric Intervention
- Vascular Intervention
- Non-Vascular Intervention
- Nursing
- Radiographer

Abstract submitters may select your preferred final presentation format: -

- Oral Presentation
- E-poster Presentation

There is no restriction on the quantity of abstracts you can submit. However, you are not allowed to present the same study or data set in several formats as stated above. The Scientific Committee will assess all abstracts. The committee has the authority to choose the abstracts that are relevant to the sessions and to determine the final format of presentation.

In order to present their work during the congress, the author who submitted successful abstracts for oral and live presentation must register as a delegate before **September 20, 2024**.

Abstract Guidelines

- The submission of the abstract is required to be in the English language.
- The abstract should be formatted with a font size 12 point and double spacing.
- Encore abstracts are prohibited.
- Please provide the precise title of the abstract.
- The title must be written in uppercase and is restricted to a maximum of 640 characters.
- Kindly provide the particulars of the co-authors, including their names and affiliations. Verify that all author details are present and accurately entered.
- Kindly include 3-5 keywords to accompany your abstract.
- Please provide the main content of the abstract. The abstract body is restricted to a maximum of 300 words, equivalent to approximately 1600 characters, for research purposes. The abstract body for a case report is restricted to a maximum of 200 words.
- Please use Vancouver style for references.
- The abstract for a case or research report should be separated into different parts, as outlined below (you may download the template on our website: <https://asm.mysir.org/abstract>):

Original Article	Case Series
<ul style="list-style-type: none"> • Background • Methodology • Results • Conclusion 	<p>Introduction, Report and Conclusion all in one paragraph</p>

Abstract Guidelines

The Objective and Conclusion need to be consistent with those in the main text and should use the same wording. The results should present the main outcomes of the study using specific numerical data (e.g., absolute numbers and/or rates) with appropriate indicators of statistical uncertainty, such as 95% confidence intervals or p values. P values should never be presented alone without the actual data that are being compared. Do not use reference citations in the abstract. Abbreviations should be minimized and, if used, must be defined within the abstract by full terminology followed by abbreviation in parenthesis.

For medical terms such as proper nouns, generic names of medicines, and units of measurement, use the original term. The use of acronyms and abbreviations is discouraged and should be kept to a minimum. When used, they are to be defined where first used, followed by the acronym or abbreviation in parentheses. Measurements and laboratory values should be in accordance with the International System of Units (SI).

Ensure correct use of the terms sex (when reporting biological factors) and gender (identity, psychosocial or cultural factors), and, unless inappropriate, report the sex or gender of study participants, the sex of animals or cells, and describe the methods used to determine sex or gender. If the study was done involving an exclusive population, for example in only one sex, authors should justify why, except in obvious cases (e.g., prostate cancer). Authors should define how they determined race or ethnicity and justify their relevance.

The names and locations (city and state or country) of manufacturers of equipment and non-generic drugs should be given.

Ensure that all changes, corrections, and proofreading have been carried out before submission.

Notification of Acceptance

- The review of abstracts will be completed within one week after the deadline for abstract submission.
- The Scientific Committee will assess all abstracts.
- The Committee has the authority to choose the abstracts and determine the sessions and final format of presentation.
- The Committee's verdict is final.
- The announcement of the results will take place on **September 7th, 2024**.
- Every author whose abstract has been accepted **MUST** register as a delegate for the congress before **September 20, 2024** in order to present their work during the event.

Disclaimer:

The organisers of this event take no responsibility for any published abstracts submitted. Any issues or errors arising from the abstracts are solely the responsibility of the authors. By submitting their work, the author(s) give permission for the abstracts to be published, transfer and assign to the Congress the rights to edit, publish, reproduce, distribute copies, and create derivative works such as press releases. The author(s) confirms that they are the only author(s) of the work and that all authors have contributed to and agree with the content and conclusions of the work. Furthermore, the work is original and does not violate any copyright, proprietary, or personal rights of any third party. If the work is not original, the author(s) must acknowledge the original source and confirm that all necessary permissions and authorizations for reuse have been acquired.
