First in Malaysia

Center of Excellence in Hernia & Abdominal Wall Reconstruction

Certified by Asia Pacific Hernia Society (APHS)

Expertise • Innovation • Excellence

Gleneagles Hospital Penang is proud to be home to **Malaysia's first APHS-certified Centre of Excellence for Hernia & Abdominal Wall Reconstruction.**

COMPREHENSIVE CARE • ONE DEDICATED CENTRE

**Inguinal
Hernia**

**Ventral
Hernia**

**Complex Abdominal
Wall Reconstruction**

**Divarication of
Recti Surgery**

Advanced Treatment Options

- Laparoscopic (Keyhole) Hernia Repair
- Robotic-Assisted Hernia Surgery
- Complex Abdominal Wall Reconstruction
- Component Separation Techniques
- Mesh & Advanced Reconstruction Procedures

Our strengths:

- Multidisciplinary team of experts
- International standards of care
- Regional referral centre
- Consultants certified in robotic surgery

Welcome Message from the Congress President

Dear Colleagues and Friends,

It is my great pleasure to welcome you to the 33rd Biennial Congress of the International Society of University Colon and Rectal Surgeons (ISUCRS 2026), which will take place from 23rd to 25th July 2026 at the Kuala Lumpur Convention Centre, Malaysia. This year's theme, **"Innovations and Collaborations in Colorectal Surgery: Bridging Tradition and Technology in a Global Village,"** reflects the exciting progress in colorectal surgery that is transforming how we approach patient care.

The congress will feature a comprehensive scientific program with highlights such as interactive workshops, cutting-edge surgical demonstrations, and expert panels discussing the latest innovations in minimally invasive surgery. Renowned speakers from across the globe will share insights on emerging technologies and treatment approaches that are shaping the future of coloproctology.

We are also pleased to announce that ISUCRS 2026 will be held in conjunction with the 6th Biennial Congress of the Society of Endoscopic, Laparoscopic and Robotic Surgeons Malaysia (SELSMAR Congress 2026), enhancing the multidisciplinary focus and expanding the opportunities for collaboration.

I look forward to welcoming you to Kuala Lumpur and to an inspiring congress filled with learning, innovation, and meaningful connections.

Warm regards

Dr. Paul Selvindoss

Congress President, ISUCRS-SELSMAR 2026

Welcome Message from the President of ISUCRS

On behalf of the International Society of University Colon and Rectal Surgeons (ISUCRS), it is my great honour and pleasure to extend a warm welcome to all participants, faculty, and esteemed guests to this exceptional event.

ISUCRS has a long and proud tradition of uniting leaders in colorectal surgery from across the globe to share knowledge, advance clinical practice, and foster collaboration in education and research. Our Society thrives on the diverse expertise, innovation, and dedicated spirit of its members - clinicians, researchers, trainees and allied health professionals who together seek to improve patient care in all aspects of colon and rectal disease.

In today's rapidly evolving surgical landscape, international dialogue and interdisciplinary cooperation are more important than ever. This meeting embodies that spirit, bringing together world-renowned educators and emerging leaders to discuss the latest evidence, refine surgical

techniques, and explore future directions in colorectal practice.

I encourage you to engage fully with the scientific programme, to challenge established thinking, and to build meaningful connections that will endure beyond this meeting. It is through shared learning and collective passion that we will continue to elevate the standards of care for patients worldwide.

Thank you for your commitment to excellence in colorectal surgery, and I welcome you to what promises to be an inspiring and rewarding experience in Malaysia in July 2026.

Warm regards,

Prof. Woo Yong Lee

ISUCRS President

Welcome Message from the President of SELSMAR

It gives me great pleasure to welcome you to this congress organised by SELSMAR together with ISUCRS. We are delighted to bring together surgeons, researchers, trainees, allied health professionals and colleagues from around the world for what promises to be a stimulating and meaningful meeting.

Our theme, "Innovations and Collaborations in Colorectal Surgery: Bridging Tradition and Technology in a Global Village," reflects the spirit of modern surgery. While we continue to respect the strong foundations of surgical tradition, we are also embracing new technologies, innovative techniques, and global collaboration that are shaping the future of colorectal surgery. This congress aims to provide a platform where ideas can be exchanged openly, experiences shared generously, and new friendships & collaborations formed.

The organising team has put together an exciting scientific program with outstanding international faculty and many opportunities for discussion and learning. I would also like to extend our sincere appreciation to our industry partners and sponsors for their invaluable support in making this congress possible.

At the same time, we hope you will take time to enjoy Malaysia — a country known for its cultural diversity, wonderful food, and warm hospitality. We look forward to welcoming you and sharing with you not only great science, but also the spirit and friendship that make meetings like this truly special.

Terima Kasih!

Warm regards,

Dr. Vimal K. Vasudeavan

SELSMAR President,

Congress Advisor ISUCRS-SELSMAR 2026

33RD BIENNIAL CONGRESS OF **ISUCRS + SELSMAR** 6TH BIENNIAL CONGRESS OF Innovations and Collaborations in Colorectal Surgery: Bridging Tradition and Technology in a Global Village KUALA LUMPUR CONVENTION CENTRE, MALAYSIA 23 - 25 JULY 2026

About the Organisers

International Society of University Colon and Rectal Surgeons (ISUCRS)

**INTERNATIONAL
SOCIETY OF UNIVERSITY
COLON AND RECTAL
SURGEONS**

Founded in November 1962, the International Society of University Colon and Rectal Surgeons (ISUCRS) was established by Dr Harry Bacon, Dr Stuart Ross, and Dr Fidel Ruiz-Moreno to promote international collaboration in colorectal surgery. Since its inception, the Society has been dedicated to advancing the exchange of scientific knowledge, fostering education, encouraging innovation, and improving the care of patients with colorectal disease throughout the world.

Our Purpose

ISUCRS is the world's only truly international society dedicated to colon and rectal surgery. We are committed to fostering an inclusive, collaborative, and patient-centred community that brings together surgeons, clinicians, researchers, and allied healthcare professionals from every region of the world. Despite our historic name, membership is open to all professionals with an interest in colorectal disease and surgery, regardless of university affiliation.

Our Mission

To advance excellence in colorectal surgery by promoting education, research, innovation, and international collaboration. We strive to deliver lasting value to our members, strengthen partnerships with healthcare organisations and industry, and support the professional development of colorectal specialists worldwide.

Our Vision

To unite the global colorectal community through collaboration, mutual respect, and shared purpose. By harnessing the collective expertise of our members and Executive Council, we seek to improve patient outcomes, advance the specialty, and inspire future generations of colorectal surgeons. Every member is encouraged to act with integrity and to place the interests of the Society and the advancement of colorectal care above individual interests.

Society of Endoscopic, Laparoscopic, and Robotic Surgeons of Malaysia (SELSMAR)

SELSMAR (Society of Endoscopic, Laparoscopic, and Robotic Surgeons of Malaysia) was formed to bring together surgeons from all over the world and Malaysia specifically. With a focus on Endoscopic-Laparoscopic techniques, SELSMAR functions as a platform for surgeons with special interest in this field to congregate their ideas, learn new techniques and educate others.

Formed in the year 2012, SELSMAR is the brainchild of a group of esteemed surgeons with a common interest and goal. Thus far, SELSMAR has successfully conducted 3 congresses with an array of various surgeons from across the globe as speakers.

SELSMAR is also part of a bigger society, ELSA or also known as the Endoscopic and Laparoscopic Surgeons of Asia. SELSMAR takes pride in its members who are the crème de la crème from various surgical subspecialties.

Besides being a platform for surgeons to come together, SELSMAR also welcomes Medical officers, Medical students and Allied health to actively participate in their host of activities.

A Leading Destination for Healthcare Travel

Steadfast to its founding principle, To Comfort Always, Island Hospital has become a top-of-mind healthcare travel destination, treating over 200,000 international patients annually. Patients from across the region and beyond seek care at Island Hospital for its clinical excellence, personalised service, and seamless patient journey.

In 2025, Island Hospital achieved a significant milestone when it was named Malaysia's First Flagship Medical Tourism Hospital by the Malaysia Healthcare Travel Council (MHTC), with full endorsement from the Government of Malaysia and the Ministry of Health. This prestigious recognition affirms Island Hospital's leadership in medical excellence, service quality, international branding, and patient experience, positioning it as a national ambassador for Malaysia's healthcare travel industry.

Further reinforcing this achievement, Island Hospital received two (2) additional national accolades:

- Digital Innovation in Patient Service Delivery
- Excellence in Healthcare Tourism Revenue Growth

These awards highlight the hospital's continued focus on innovation, growth, and sustainable healthcare delivery.

Island Hospital - part of the IHH Healthcare multinational network

"For Healthcare Professionals Only"

CHLORHEXIDINE

YOUR CHOICE, YOUR PROTECTION.

PREVENTION
OF COMPLICATIONS IS BETTER THAN THE CURE

Product Features	Novosyn® CHD
Structure	Multifilament braided and coated suture
Material	Polyglactin 910
Coating	Polyglactin 370 + Calcium stearate + Chlorhexidine diacetate
USP range	5/0 to 2
Colour	Undyed and violet
Indications	Soft tissue approximation and / or ligation, especially in the region of the gastro-intestinal tract, in gynecology and urology
Sterilization process	Ethylene oxide
Tensile strength retention	After 1 day: 100% After 14 days: 75% After 21 days: 40-50% After 28 days: 25%
Antibacterial effect	Chlorhexidine diacetate bactericidal effect is a result of the binding of this cationic molecule to negatively charged bacterial cell walls
Mass absorption	After 56 till 70 days

Colonization of the thread

Novosyn® CHD
Bacteria not being adhered to the thread, avoiding the biofilm formation.

ABOUT THE VENUE

Kuala Lumpur Convention Centre

The Kuala Lumpur Convention Centre is a purpose-built convention and exhibition facility strategically located in the Kuala Lumpur City Centre overlooking the iconic PETRONAS Twin Towers and the 50-acre KLCC Park.

Spanning five levels, the Centre offers 22,659m² of flexible function space including 12,310m² of column-free exhibition halls including a 2,600m² standalone marquee, 3,000 capacity Plenary Hall, 500-seat Plenary Theatre, Grand Ballroom for 2,000 diners, Banquet Hall for 750, Conference Hall for 1,800, 20 meeting rooms, ancillary facilities, and the latest in wireless, 3G telecommunications and digital audiovisual services.

All entrances are disabled-friendly and provide easy access to all elevators.

By Road

If you are in a taxi or a chauffeured car, approach the Centre along Jalan Pinang and turn left into the Main Entrance (second turn after the Mandarin Oriental Hotel) for drop off. If you are driving, here are your parking options:

Take the first left after the Mandarin Oriental Hotel from Jalan Pinang up the ramp to access the car park at the Centre's basement.

Park at the KLCC Suria car park and exit to the Concourse level Centre Court. Make your way past Cold Storage to the Guardian Pharmacy where there is a covered walkway through to the Centre. Take the elevator to the Level 3 where you will be directed to the Registration area.

By Train

Take the Light Rail Transit (LRT), Kelana Jaya Line to the KLCC Station. Turn left after exiting the turnstiles and walk through the Suria KLCC shopping centre Concourse level to the Centre Court. Turn left and make your way past Cold Storage to the Guardian Pharmacy where there is a covered walkway through to the Centre. Take the elevator to the Level 3 where you will be directed to the Registration area.

Park at the KLCC Suria car park and exit to the Concourse level Centre Court. Make your way past Cold Storage to the Guardian Pharmacy where there is a covered walkway through to the Centre. Take the elevator to the Level 3 where you will be directed to the Registration area.

On Foot

From the Suria KLCC shopping centre's Concourse Level Centre Court, make your way past Cold Storage to the Guardian Pharmacy where there is a covered walkway through to the Centre. Take the elevator to the Level 3 of the Centre where you will be directed to the Registration area.

The Centre is also accessible for delegates and visitors via the air-conditioned Bukit Bintang-KLCC Link Bridge. The link bridge features entrance/exit at the Pavilion Mall (Bukit Bintang), Wisma Cosway, Jalan Perak and the Impiana KLCC Hotel with convenient exit escalators and staircases) located at the main entrance to the Centre. This air-conditioned link allows delegates and visitors to travel conveniently, comfortably and safely on foot.

ATTRACTIONS AROUND KUALA LUMPUR

Menara KL

Built on top of a small hill, its height above sea level is 515m and you can get the best views of KL and the surrounding districts from its observation deck and revolving restaurant.

Petronas Twin Tower

The Petronas Twin Towers are the highest skyscrapers in Kuala Lumpur. One major attraction of the Towers is the Twin Towers Skybridge between the two towers at the 41st and 42nd floor.

Batu Caves

Batu Caves is a limestone hill which is made up of a series of caves and also cave temples. Batu Caves is one of the most renowned Hindu shrines located outside of India which is dedicated to the Lord Murugan.

Titiwangsa Lake

The Titiwangsa Lake Gardens is a recreational park for the public. It has a few huge lakes in the middle of the park. There are many facilities at the park which includes jogging tracks, aqua biking, canoeing and other outdoor activities.

Little India Brickfields

Little India of Brickfields is always a bustling street. The colors of the street are simply amazing. You can see vendors lugging bales and bales of sarees through the traffic. You can find sarees of any colors and designs here.

Central Market

Central Market is located in Pasar Seni. The Central Market is full of stalls which sell handicrafts which are all locally made. There is also a street which represents the Baba and Nyonya community in the state of Malacca.

China Town

The Petaling Street (Chinatown) is a place where the hustling and bustling never comes to an end. Day or night, visitors keep coming to Petaling Street to either dine on the famous street foods here or to get some good bargains on things sold here.

KL Bird Park

Just 10 minutes from the city center is 20.9 acres of land dedicated to some 3000 birds from at least 200 species. 90% of the birds at the Kuala Lumpur Bird Park can be found locally while the remaining 10% were imported from overseas.

KL Lake Gardens

Extending over 92 hectares of land, the Lake Gardens houses various parks and gardens. As of today, there are five other gardens and parks which are open to the public daily. They include the Orchid Garden which is filled with over 800 species of orchids.

The 33rd Biennial Congress of ISUCRS 2026 will be a landmark event, bringing together leading experts, innovators, and pioneers in the field of colorectal surgery. In conjunction with the **6th Biennial Congress of the Society of Endoscopic, Laparoscopic, and Robotic Surgeons Malaysia 2026 (SELSMAR Congress 2026)**, this prestigious congress will explore the theme "Innovations and Collaborations in Colorectal Surgery: Bridging Tradition and Technology in a Global Village." The event offers a unique platform for global collaboration, fostering the exchange of knowledge and expertise in both traditional and modern surgical practices.

The congress will highlight the integration of time-honored techniques with cutting-edge technologies, exploring how both can complement each other to enhance patient care. Attendees will have the opportunity to learn about the latest research, advancements, and tools reshaping colorectal surgery, while still honoring the foundational principles of the field. This focus on innovation and tradition aims to improve surgical outcomes on a global scale.

With dynamic discussions, hands-on workshops, and presentations, the event will inspire healthcare professionals worldwide to push the boundaries of collaboration and technological progress in the field of colorectal surgery. By bringing together experts from across the globe, the congress will foster the continuous advancement of surgical practices for the benefit of patients everywhere.
