Practices of Uruguay Customs related to interconnectivity of the certificate of origin

LIC. FIORELLA CAGNONE -
FEBRUARY 2025

Dirección Nacional
de Aduanas

WHY? FOR WHAT REASON? WHAT PROBLEM ARE WE SOLVING?

BALANCE- TRADE FACILITATION AND CONTROL

Check optimization

Automatic checks

Saving Resources

Reduction of checking times

Automatic back to back certificates or origin

Security

Authenticity

Integrity

Dirección Nacional
de Aduanas

Celerity

Saving time in processing for the exporter

Saving time in sending CO to the importer

Saving Resources

Processing costs
avoided

Expenses saved by avoiding shipping
of the CO to the importer

Storage costs are
saved

Saving natural
resources

Security

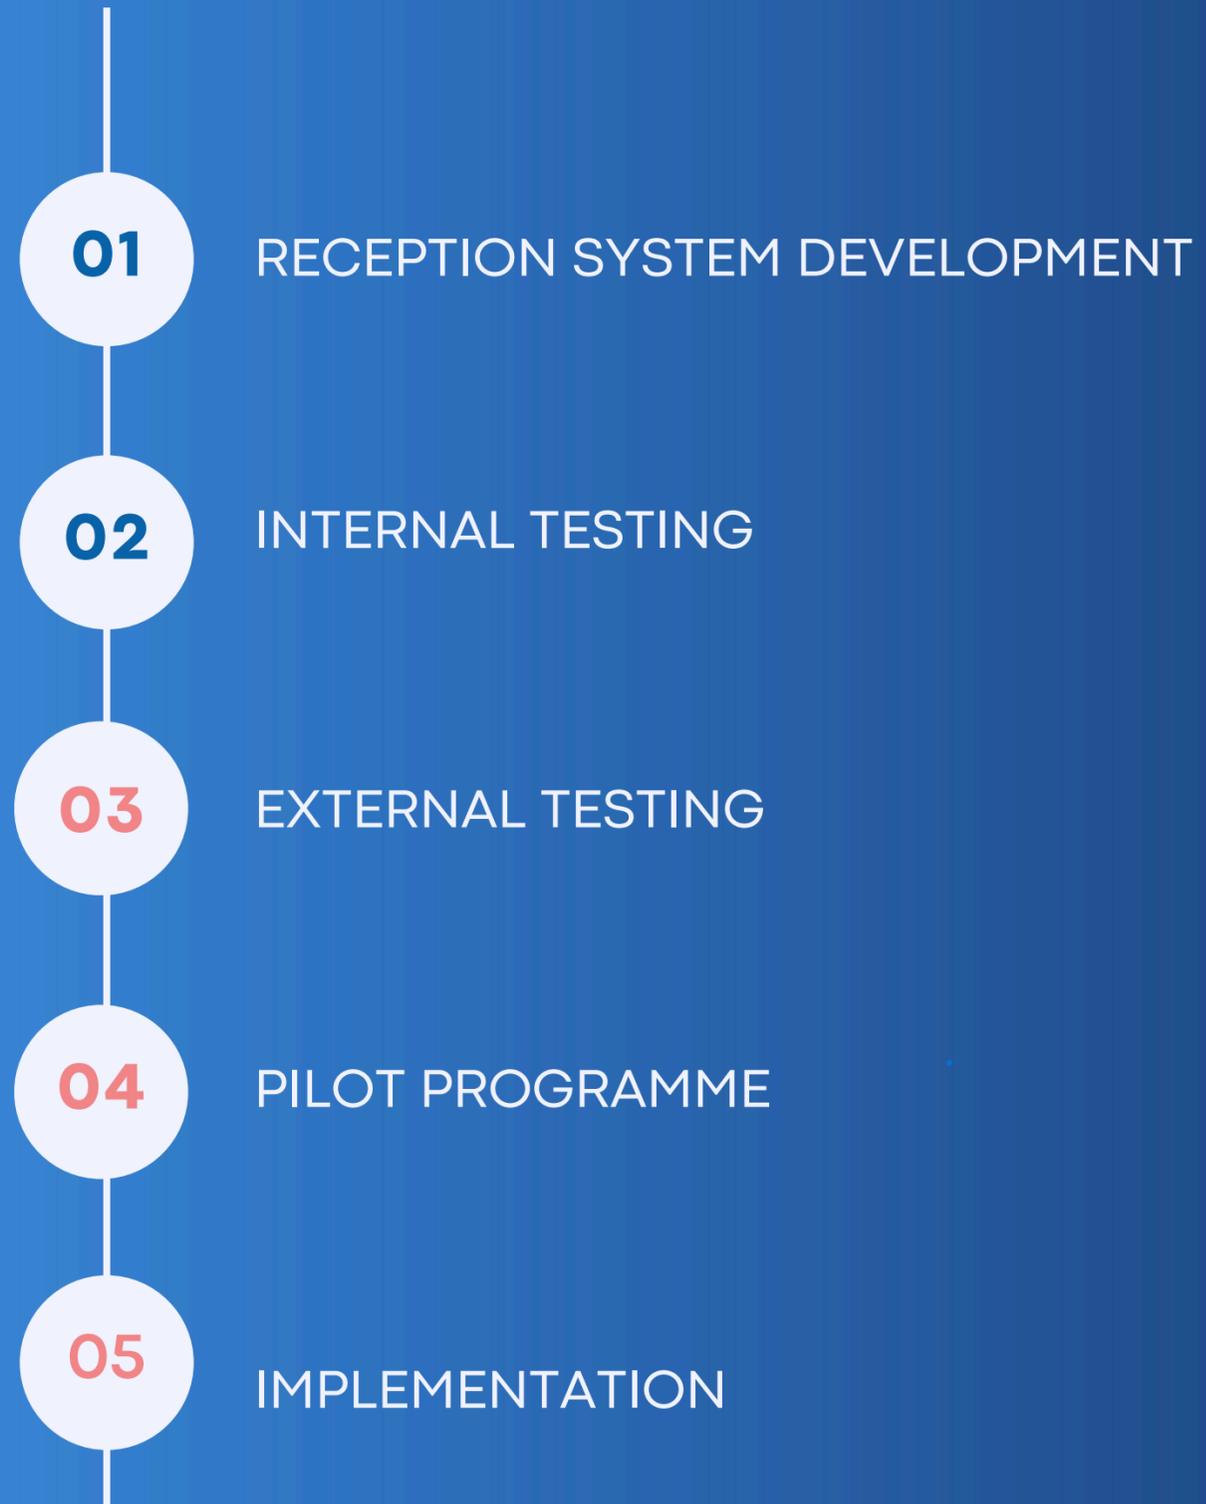

Authenticity

Integrity

de Aduanas

LESSONS LEARNED

1 - Updating regulations in current trade agreements that allow the issuance of certificates of origin in digital format

2 - It is necessary that the countries which are part of the trade agreements use the single window as a tool for interoperability

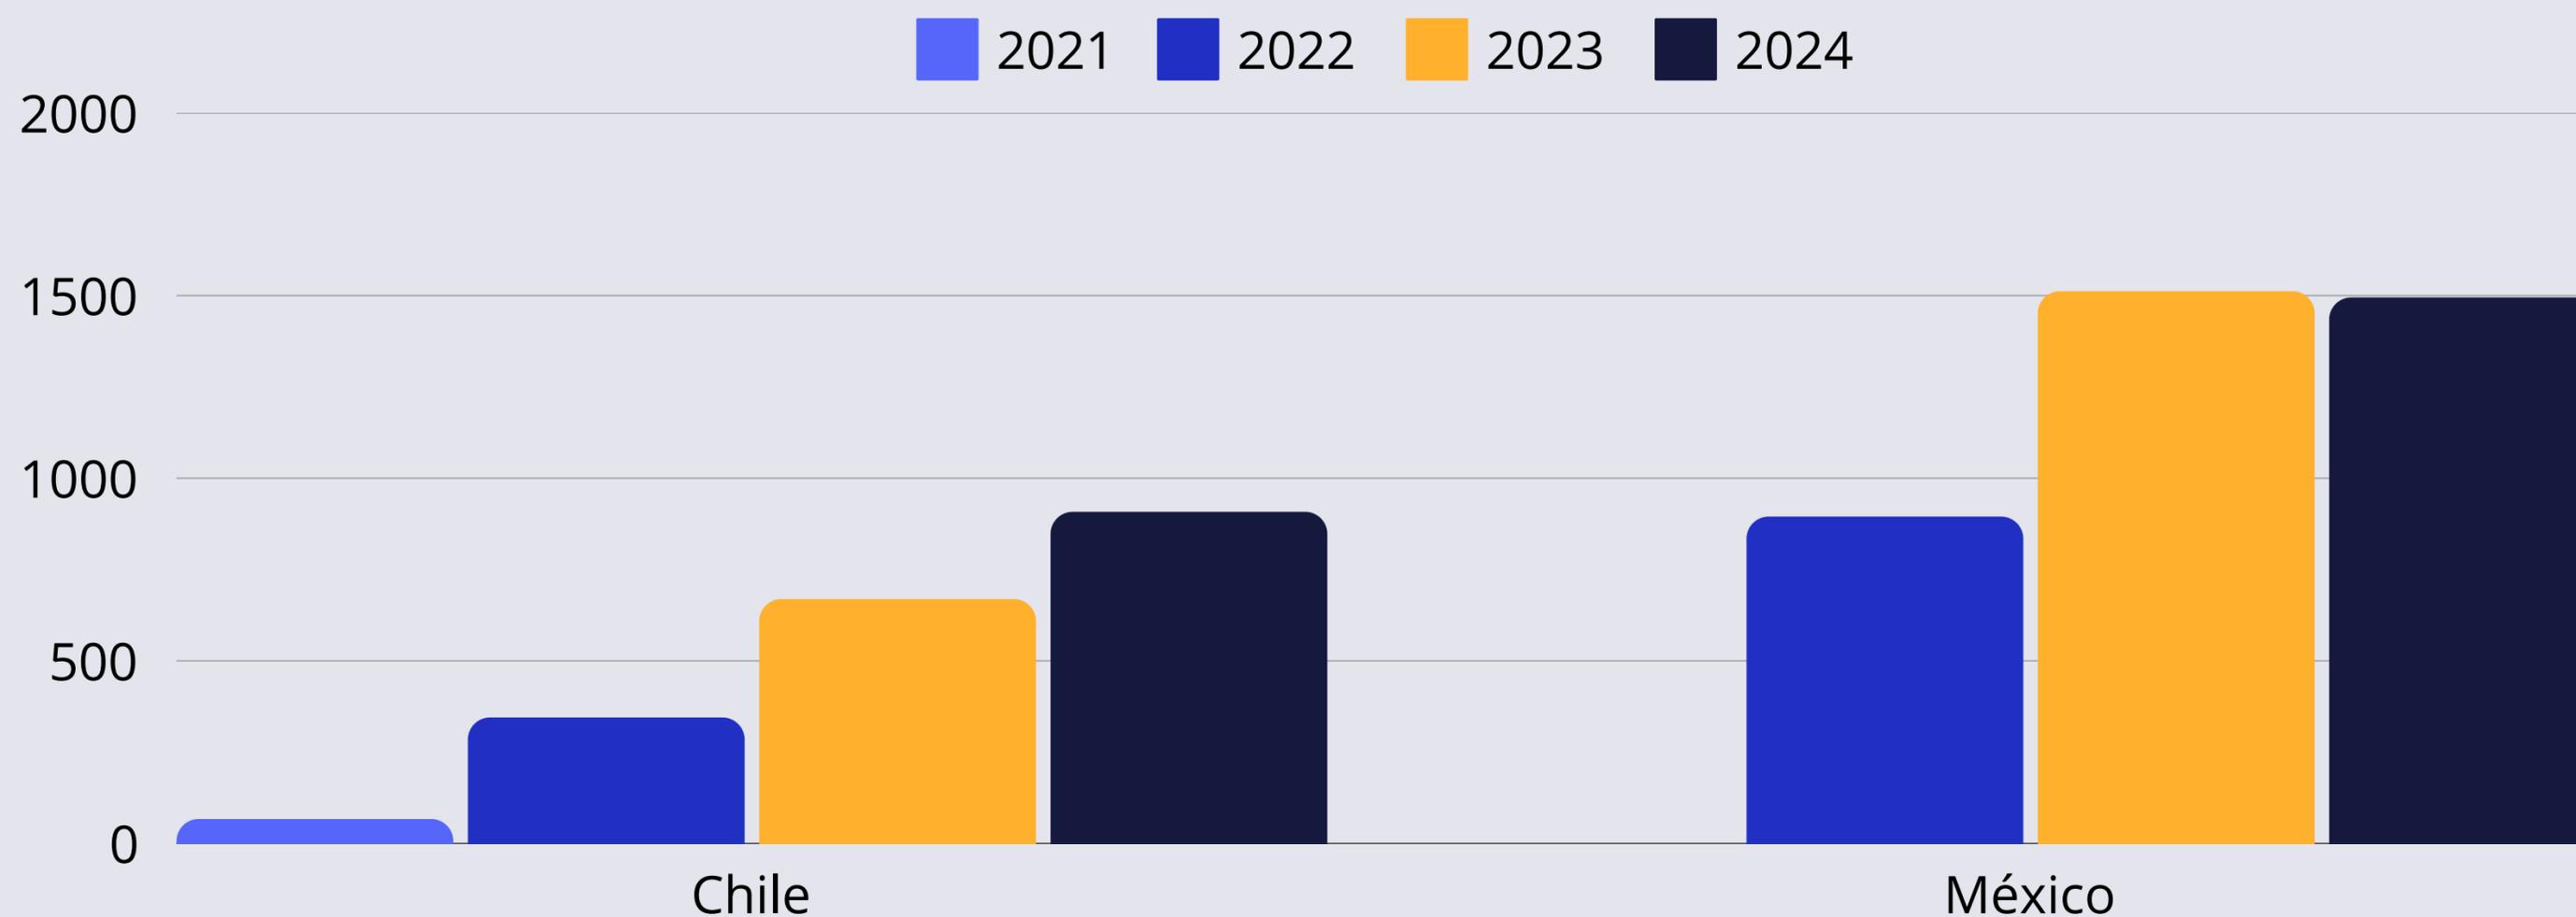

3- The biggest obstacle is the lack of information, therefore it is always important to keep operators and customs officials updated.

4- Have a back up plan in case of systems fails

DIGITAL CERTIFICATES OF ORIGIN

By 2024, for Chile, 27% of the declared certificates of origin are digital and for Mexico, 100% are digital certificates of origin

THANK YOU!
