25rd June 2025.

Subject: One-off Application to Conduct Training SBL Scheme.

Dear Sir/Madam,

The Malaysian Society of Wound Care Professionals (MSWCP) was established in 2011 by Professor Dato Dr Harikrishna Nair. The society was established to educate medical personnel regarding wound care. This society has organized multiple community-oriented programs both locally and government-wide.

We have been organizing this yearly international wound care conference for a few years now, with participants from all over the world. This year, the course will be held on the 10th to the 12th of October 2025 in the Sunway Convention Centre.

The aim and objective of the course are:-

1. To establish a network of people with an interest, knowledge, and expertise in the field of wound care.
2. To create a discussion platform for all healthcare professionals to share their knowledge and expertise on the best practices in wound care management.
3. Organize events related to wound care and learn from experts across the blogs
4. To facilitate and encourage interested healthcare personnel to undertake research in the field of wound care.

Therefore, here we put forward an application for the above-mentioned course registered under HRDcorp. This will enable the participants' employers to benefit from tax exemption for the registration of their employees in this wound course.
