FOUNDATION IN **INVESTIGATION SERVICE**

(MQA/PA 17766)

PROGRAMME DESCRIPTION

Foundation in Investigation Services is the ability to provide students with a broad understanding of different investigation disciplines. This program typically includes subjects such as social sciences, humanities, and arts. The broad curriculum not only allows students to explore their interests but also helps them discover their strengths and preferences before committing to a particular field of study. This program gives the student a good understanding and strong preparation before further to a Bachelor's degree level in criminology, policing, forensics, investigative psychology, or other fields of interest. Kolej UNIKOP Foundation in Investigation Services offers a diverse curriculum that equips the students with creative and critical thinking skills to complement the current industrial demand
