

TOWARDS UNIFIED RISK MANAGEMENT

MTS | 2026 WCO Technology Conference

Objectives of Unified Risk Management

Achieving Operational Efficiency

Creating a strategic balance between operational efficiency and necessary control measures.

Enhancing Trade Facilitation

Streamlining procedures to speed up the release of legitimate, low-risk cargo.

Ensuring Regulations Compliance

Strictly adhering to import release regulations to maintain safety, security, and legal standards.

Risk Management Systems Various Perceptions

Safer Trade Across Borders

Single Operational Database

Truth has only one face

Timely Populated Data Warehouse

Real-time updated profiling

Universal Risk Management System

A single system that brings together the stakeholders

Core Enablers of The Universal Risk System

Technology *isn't* the only challenge in Unified Risk Management. Effective decisions emerge from the combined power of **People, Policy, and Data** across the ecosystem.
