

New criteria for becoming an ISCCM examiner

Applicants can use the criteria mentioned below to assess if they are eligible to become examiners for the various examinations conducted by ISCCM. They will have to satisfy all the criteria to first observe the conduct of the respective examination, following which they would be formally inducted as an examiner for the subsequent examinations.

- Should be a member of the ISCCM
- Have to be a recognized teacher for CTCCM, IDCCM or IFCCM

1) Criteria for becoming a CTCCM examiner

- Should be a CTCCM/IDCCM teacher for at least 2 years
- At least 1 candidate should have passed CTCCM/IDCCM examinations in the previous 2 years from his/her institution

After the above criteria are met, CTCCM teachers become eligible to observe the conduct of one CTCCM exam and then be formally inducted as a CTCCM examiner for the following examination.

2) Criteria for becoming an IDCCM examiner

- Should be a IDCCM teacher for at least 3 years.
- At least 1 candidate should have passed IDCCM examinations in the previous 3 years from his/her institution.

After the above criteria are met, IDCCM teachers become eligible to observe the conduct of one IDCCM exam and then be formally inducted as an IDCCM examiner for the following examination.

OR

- DM / DrNB examiners who are not IDCCM/IFCCM examiners can become such examiners by attending an online orientation program organised at a specified date by the ICCCM.
- DM / DrNB teachers who are not yet DM/DrNB examiners can become IDCCM examiners by being observers in one exam conducted by the ICCCM as allocated by the exam secretary.

3) Criteria for becoming an IFCCM examiner

- Should be an IFCCM teacher for at least 2 years or an IDCCM examiner for 2 years with 2 peer-reviewed publications in PubMed indexed journals.
- At least 1 candidate should have passed the IFCCM examination in the previous 3 years from his/her institution.

After the above criteria are met, IFCCM teachers become eligible to observe the conduct of one IFCCM exam and then be formally inducted as an IFCCM examiner for the following examination

Candidates who have not got IFCCM, FNB/DNB, DM, FCICM, AB or equivalent qualification from UK/ Canada in Critical Care Medicine will not be eligible to be an IFCCM examiner

4) Criteria for selection of chief examiners

CTCCM chief examiner-

- Should have taken part in at least 4 CTCCM examinations. (Is there a time frame within which they should have done this

IDCCM chief examiner-

- Should have taken part in at least 4 IDCCM examinations

IFCCM chief examiner-

- Should have taken part in at least 4 IFCCM examinations
