

General Secretary Message

Sachin Gupta

General Secretary, ISCCM

Dear Esteemed Members

The ISCCM National elections alongwith 64 city branches elections were smoothly conducted during the first week of June and I congratulate all the elected members. I would also like to take this opportunity to thank each and every member of the branches who participated in their local city branch elections and made ISCCM Proud.

As we move forward, we are going to conduct our College Conclave with Fellows conclave, Teachers Conclave, Guideline conclave and 25 years of IDCCM celebration from 22nd to 24th August in Gurgaon. I would like to extend a warm invitation to all the teachers and fellows of Indian College of Critical Care medicine to actively participate in this crisp meaningful meeting which can help us to take our educational wing to higher heights.

CRITICARE 2026 is the final destination for this year and we are preparing for it with full swing. I would thank the members who have already registered for the conference as well as various workshops. I would urge others to register for the event as our registration gives the options of bulk registration with no extra charge for Gala dinner. The conference would be a rich combination of experienced International faculties and young dynamic and learned National Faculties and they will be sharing their ideas and knowledge at various forums.

The society is soon launching the ISCCM Benevolent Fund scheme for all its members and it will be step to some financial security to the members in case of a mishap. I would urge all the members to go through the scheme details and actively participate in it.

Last but not the least, we all were deeply saddened by the aircraft crash on a hostel of medical college and young lives were lost. We as a society, stand with the bereaved family in these difficult times.

I would like to finish my address by requesting all the members to register for CRITICARE 2026 and try making it a heavily attended conference and a resounding success.

Long Live ISCCM!
