WELCOME MESSAGE

Dear Colleagues and Industry Partners,

On behalf of the Malaysian Society of Nephrology (MSN), it is my great pleasure to warmly welcome you to the 40th Annual Congress of Malaysian Society of Nephrology 2026, which will be held from **24 – 26 July 2026** at **Sunway Pyramid Convention Centre** with the theme **“Refining Nephrology of Tomorrow”**.

This theme reflects our commitment to advancing kidney care through innovation, collaboration, and evidence-based practice. It emphasises continuous improvement in nephrology today while preparing clinicians and researchers for the challenges and opportunities of tomorrow. Together, we aim to shape the future of kidney health for better patient outcomes.

The 2 ½-day scientific program will feature exciting keynote lectures, plenaries, state-of-the-art symposia, CMEs, industry lunch symposia, and opportunities for networking. Through engaging discussions and thought-provoking sessions, the congress aims to ignite transformative care that continues to drive progress in nephrology. This year’s congress is not just an event; it is a transformative experience where expertise meets collaboration, innovation meets application, and the leaders of today inspire the leaders of tomorrow.

On behalf of the Organising Committee, we warmly invite you to join us for the congress and we look forward to welcoming you.

Professor Dr Lim Soo Kun

Organising Chairperson,
40th Annual Congress of Malaysian Society of Nephrology 2026

President,
Malaysian Society of Nephrology

WHY ATTEND?

Distinguished Keynotes & Plenary Sessions

Insights from local and international experts shaping the future of nephrology.

State-of-the-Art Scientific Programme

Focused symposia and CME sessions covering current practice, emerging evidence, and future directions.

Industry-Supported Learning

Lunch symposia and Ignite Session showcasing innovations and real-world applications in kidney care.

Collaboration & Networking Opportunities

A platform to connect, exchange ideas, and build partnerships across disciplines and generations.

WHO SHOULD ATTEND?

- Nephrologists and kidney specialists
- Internal medicine and primary care physicians
- Healthcare leaders and policy advocates
- Nurses, dietitians, and allied healthcare professionals
- Medical trainees and researchers
- Medical students
