Ramgarh Shekhawati, an enchanting heritage town of wall frescoes, often known as the open art gallery of Rajasthan, has gifted the world with a Heritage that is the epitome of the Creative Indian Spirit, set amidst a culturally and historically inviting landscape and a forest of Cinkara deer across the road...

It recalls to us the eternal Indian quest for Infinite Innovation - its Culturescape of Massive Diversity – of Stunning Profusion of Forms in its Magnificent Mahals, massive Forts, Stunning Havelies, its Stepwells and Johads, and above all, the beautiful and creative ways of dressing and adornment, the diverse array of delectable cuisine, their passionate word and song, their scintillating dances, and how they depicted their deities, their fashions, the changing times and their desires and fantasies with ever evolving expressions profusely showcased on the doors, walls, ceilings, pillars and domes.

Ramgarh Shekhawati, created as the richest and most beautiful town of Rajasthan in the 18th and 19th centuries, by the rich Poddar merchants is on its way to become ... the most coveted Heritage tourism destination for the World!
