

DR. DEVINDRAN MANOHARAN

Devindran Manoharan is a consultant urologist currently practicing in Penang General Hospital. He attended Medical School in Melaka Manipal Medical College where he graduated in 2004 after being awarded the Datuk K. Pathmanathan Gold Medal Prize for Best Student in Medicine. He then served as a house officer and later medical officer in Penang General Hospital before completing his Masters in Surgery in Universiti Malaya in 2014 and was awarded the S.M Al Hady Gold Medal for best overall student in Malaysian Conjoint Board of Surgery Final Examinations. He served as a General Surgeon in Johor Bahru before he joined the urology subspeciality training programme and completed his FRCS in 2019 and was awarded the Gold Medal for best overall candidate. He then completed his fellowship in Uro-Oncology in Adelaide, Australia for one year before returning to Penang General Hospital.

Mr Devindran is proficient in endourology and minimally invasive surgery and is dedicated to the pursuit of new technologies and surgical advancement to help serve his patients better. He is active in surgical research and is an investigator in multiple studies conducted in Penang General Hospital. He is keen on education and is involved in training of urology trainees, general surgeons and medical students specifically with Penang Medical College. He is also active in numerous organizations such as the Malaysian Urology association and the Asian Urology association. He is involved in the organization of the Malaysian Urology Conference 2021 and 2022 and is currently part of the Ministry of Health committee involved in the creation of the first national Clinical Practice Guidelines for Erectile Dysfunction.
