CV : DR. MD.AMIN IBRAHIM

BIODATA			
Name	Dr. Muhammad Amin Ibrahim		
	Respiratory and Internal Medicine Physician Senior Medical Lecture		
Current Post &			
Institution	Head of Respiratory Unit		
	Department of Internal Medicine, Faculty of Medicine, UiTM Sg Buloh Campus, Jalan Hospital 47000 Sg Buloh, Selangor Darul Ehsan		
Age (D.O.B)	39 years old (23 rd January 1983)		
Nationality	Malaysian		
Email	dr.muhd.amin@gmail.com, m_amin88@uitm.edu.my		
PROFILE			

Dr Muhammad Amin Ibrahim graduated from the Queen's University Belfast in 2008 where he completed his internship before returning home to join the Faculty of Medicine, Universiti Teknologi MARA(UiTM) in 2010. He was posted in Hospital Selayang, subsequently completing his Master in Internal Medicine program from 2011 to 2015. He later enrolled for respiratory fellowship training from 2017 until 2019. He worked in various respiratory centres in Malaysia during his fellowship training which included Serdang Hospital, Institut Perubatan Respiratori and Alor Setar Hospital. At present, Dr Muhammad Amin Ibrahim is a Senior Lecturer and also Head of the Respiratory Unit in UiTM Teaching Hospital based in Sungai Buloh and Puncak Alam. He is currently in-charge overseeing the COVID-19 ward and post COVID-19 clinic follow-up. He recently received a Selangor state fund and industrial sponsorships for post COVID-19 clinical follow-up study.

Asthma

Chronic obstructive pulmonary disease

Pulmonary tuberculosis

Pneumonia and lung infection

Lung cancer

Interstitial lung disease

Sleep medicine

COVID-19 and post COVID-19 care

RESPIRATORY SKILLS AND PROCEDURES

Spirometry

Full lung function test and gas transfer

Methacholine challenge test

Bronchial provocation test

Cardio-pulmonary exercise test

Flexible bronchoscopy

Endobronchial ultrasound needle aspiration

Endobronchial lung biopsy

Transbronchial lung biopsy

Pleural ultrasound

Pleuroscopy

Pleural biopsy via pleuroscopy and Abram needle

Pleural drainage via Seldinger technique and conventional chest tube

In-dwelling pleural catheter

Medical pleurodesis

Polysomnography

Multiple sleep latency test

Positive airway pressure titration for obstructive sleep apnoea and obesity hypoventilation

Non-invasive ventilation for acute exacerbation of COPD
