

36th International Geological Congress

An Autonomous Body under Government of India

Rescheduling of 36th IGC to 16-21 August 2021

New Delhi
26.6.2020

Dear Colleagues,

It gives us great pleasure to connect with you once again since the announcement of the postponement of the 36th IGC.

The preceding months have been a herculean challenge to the team-36th IGC due to the unforeseen situation forced by Covid-19 pandemic. But true to our commitment, we have worked relentlessly in the background to ensure that the 36th IGC is held in its full glory.

The world is still grappling with inventing the vaccine against the corona virus. Our heart goes out to all those who lost their lives as well as the frontline warriors who have risked their lives so that the others live. But as they say - the show must go on. After a critical assessment of the ground situation, the Local Organizing Committee, 36th IGC arrived at the conclusion that the most ideal dates for holding the Congress would be 16-21 August 2021.

We thank the Government of India for unstintingly supporting us in this turbulent journey. We also thank IUGS and the esteemed members of the IGCC for generously honoring our request for rescheduling the Congress to August 2021.

Above all, we thank you for reposing faith in us, and look forward to welcoming you in India with love, warmth and respect.

Sincerely yours,

Prof V. P. Dimri
President
36th IGC

Dr. Rasik Ravindra
Secretary General
36th IGC
