Firm sponsors CCTVs to step up security in schools

NATION Friday, 5 May 2017

By Lee Chonghui

KUALA LUMPUR: A company has stepped in to help improve security in government primary schools by sponsoring the installation of CCTVs, says Deputy Education Minister Datuk Chong Sin Woon.

He said a hundred sets of Megapixels IP Surveillance Systems have been provided for 100 schools by Gamma Solution Sdn Bhd as part of its corporate social responsibility programme to deter crime from happening to students.

Chong said the ministry would recommend some schools for the installation and hoped the campaign will be able to reduce crime in high-risk schools.

He said schools that apply for the installation of the CCTVs must already be equipped with wired broadband Internet.

Malaysia
Education Ministry urges schools in high risk areas to install high-tech CCTV

BY ANTHONY ADLAM MAY 05, 2017

PETALING JAYA, May 5 — The Education Ministry is urging schools in high risk areas and with high crime rates to install high technology closed circuit television (CCTV) systems.

The system, which includes four units of 2.4 megapixels Internet Protocol (IP) cameras, will be installed in 100 primary schools nationwide as part of a Corporate Social Responsibility (CSR) programme under the "Fight Crime for Schools Campaign" by Gamma Solution Sdn Bhd.

Deputy Minister Datuk Chong Sin Woon said schools can apply directly to Gamma Solution for the system to be installed.

About Our Campaign

In view of the alarming trend of student being kidnapped and other school crimes, Gamma Solution Sdn Bhd have initiated “Fight Crime for Schools Campaign” funded by Gamma Solution, Intel® and WD Purple to secure 100 Primary Schools in Malaysia with the installation of TITANUS Megapixels IP Surveillance System. The campaign is supported by Deputy Education Minister YB Senator Datuk Chong Sin Woon and Polis Di-Raja Malaysia (PDRM).

The objective of this campaign is to reduce crime and prevent kidnap attempt near schools. High Definition Megapixel IP cameras installed at school entrance, students pick-up and drop-off areas are targeted to capture important video footages with clear details for future reference. These works form part of Gamma Solution corporate social responsibility (CSR) to assist in providing a secure and safe learning environment to our children.

Further to enhance security awareness in Malaysia, Gamma Solution collaborate with PDRM to prepare and distribute a Crime Prevention Handbook to every student. We wish to share more useful crime prevention tactics with teachers, parents and students because we believe deterrent and prevention are more important.

We hope through this campaign we can create security awareness at school and with the installation of megapixels IP cameras, the security system will help to reduce crimes, especially kidnapping at schools.

We would like to take this opportunity to thank Datuk Chong, PDRM, Intel®, WD Purple, sponsors, business partners, media and all supporting parties who join hands with us in this campaign. Let's work together to create a better Malaysia.

Thank you.
