

## Lithium Disilicate Laminates: All you would like to know!

Chief Mentor

**Dr. Reshu Madan**

Co-Mentor

**Dr. Shefali Phogat**

**Dr. Nupur Dabas**

**Dr. Monika Malik Vigarniya**

**Suitable for**

**Intermediate learners**

Smile designing as learnt with the basics of complete denture teeth arrangement, has the power of changing smiles and lives of patients. The skill to bond Lithium Disilicate to natural tooth can help in cases of discoloured teeth, diastema and various other esthetic challenges.

In this PCC the students will learn the intricacies of bonded dentistry, Shade selection, impression techniques, temporization, bonding and adhesion concepts.

The PCC would include video demonstration also.
