

Resurrection of Tooth: All Ceramic Preparation
Demonstration of Provisionalization and Wax Pattern Fabrication
- A Master's Approach

Chief Mentor	Dr. SumitSingh Phukela
Co-Mentor 1	Dr. Bhupender Yadav
Co-Mentor 2	Dr. Pankaj Ritwal
Suitable for	New Learners & Intermediate learners

- **Learning objectives**
The students will learn the following things
 1. Mastering tooth preparation steps for All Ceramic Crowns
 2. Revolutionary techniques for fabrication of Provisional restorations in Fixed Partial Denture.
 3. Wax pattern fabrication for Metal ceramic and all metal crowns
- **Background information**
This course allows students to practice and improve their current skills set in the area of Tooth preparation, Provisional prosthesis and Wax pattern fabrication in Fixed Partial Denture. This course is based on latest technologies and exercises to help master optimal aesthetic outcomes
- **Important topics/concepts covered**
 1. Mastering tooth preparation steps for All Ceramic crowns
 2. Revolutionary techniques for fabrication of Provisional prosthesis in Fixed partial Denture
 3. Demonstration of Wax pattern fabrication for Metal ceramic and All metal crowns.
- **Whether only lecture or includes any video demonstration**
The course will include recorded lectures and self-recorded videos (Demonstration **of Tooth Preparation, Provisional Restorations and Wax pattern fabrication in Fixed partial Denture**) for the better understanding of students.
