

Prosthodontic Management of Extensively Mutilated Teeth – The Decision-Making Process

Chief Mentor	Dr. Pratibha Katiyar	
Co-Mentor 1	Dr. Fauzia Tarannum	
Co-Mentor 2	Dr. Kaushik Kumar Pandey	
Co-Mentor 3	Dr. Abhishek Gaur	
Suitable for	New Learners, Intermediate learners, Advanced Learners	
<ul style="list-style-type: none"> ● Learning objectives – This PCC will be conducted with following objectives: <ul style="list-style-type: none"> ➤ To diagnose an extensively mutilated tooth, plan the treatment and decide the prognosis of the same. ➤ To understand the theories and details of post and core system and different procedures which can be performed for rehabilitation of such teeth like Split cast post, Relining fibre post, Withdrawal post, Geometric Salvage, etc. ➤ To appreciate various prosthetic reconstruction options available after a successful Root Canal Therapy like Endocrowns, Richmond Crown, etc. ● Background information – <ul style="list-style-type: none"> ➤ Present era of dentistry is focussed on conservation of natural tooth and it is generally agreed that successful treatment of a grossly decayed tooth with pulpal disease depends not only on good endodontic therapy but also on good prosthetic reconstruction of tooth after completion of endodontic therapy. In this PCC, we will be covering various methods of prosthetically managing a severely mutilated tooth i.e. a tooth where remaining tooth structure is less than the amount of tooth loss, after a successful endodontic treatment. ● Important topics/concepts covered - We will be covering the following topics: <ul style="list-style-type: none"> ➤ Post space preparation and its impression technique. ➤ Endocrowns ➤ Split cast post and core-different designs ➤ Richmond crown ➤ Withdrawal post ➤ Geometric Salvage ➤ Hemisection ➤ Need for crown lengthening ➤ Customized metal post used in primary teeth ➤ Canal projection technique ● Whether only lecture or includes any video demonstration – <ul style="list-style-type: none"> ➤ The PCC will include video demonstration along with lecture. 		
<ul style="list-style-type: none"> ● Whether you will provide any learning materials (soft copy) to participants beforehand 	YES	
<ul style="list-style-type: none"> ● Any instructions for the participants 	Written instruction will be given in soft copy before hand
