

Feedbacks Received from Some of the Participants on the Master Class

“

The session was truly an eye-opener, providing invaluable insights into the world of high-performance textiles, fibers, and yarns, as well as their vast and varied applications. It's exciting to see the immense potential and scope in the HPT industry, particularly in terms of export opportunities.

It was a great learning experience for me while attending the masterclass based on "High Performance Fibers and their Application".

It was very informative and logical so as to make a healthy collaboration between researchers, students, industrialists and government bodies. These types of collaborations are the need of the hour in order to boost the Indian technical textiles sector.

“

Today's presentation by Dr. Nandan, was very informative. Even though I know him I have never attended his presentation. Even though the time is very short he has covered a lot on fibers. This platform has given me an opportunity to attend.

The presentation on one fiber every month is a very good idea, two hours on each fiber is necessary for us to gain more inputs. I expect more presentation like this to come in the future.

The MATEXIL session on High Performance Fibres and their Applications was wonderful.

Thanks for arranging such an informative Master Class.

Like to attend more sessions in the future.
