MANMADE AND TECHNICAL TEXTILES
EXPORT PROMOTION COUNCIL

(Formerly SRTEPC)

Exports Potential of MMF Textiles

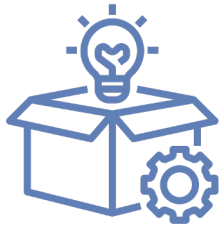

- Manmade Fibres (MMF) Textiles are the Future of Indian Textiles Industry
- Globally, MMF share in the world fibre consumption has grown up by 7% during 2011 to 2019. The consumption of MMF is expected to grow further by 5% and occupy a share of 76% in 2030 from 71% in 2019.
- Manmade Fibres are sustainable, versatile and innovative. More value addition can be carried out.
- Indian Textiles Industry is now realising the global demand of MMF and Exports Potential of MMF Textiles.
- As the Only Nodal Agency for Export Promotion of MMF Textiles in India, MATEXIL can help you to entre into Exports of MMF Textiles.

About MATEXIL (formerly SRTEPC)

- Nylon
- Acrylics
- Aramids

Yarn

- Synthetic & Artificial Filament yarns
- Synthetic and Artificial Spun Yarn

Fabrics

- All kinds of MMF based fabrics

Made-ups

- Sarees
- Shawls
- Scarves
- Stoles and all other made-ups

Home Textiles

- Bed, bath and kitchen linen
- Furnishing articles
- Curtains, etc.

Technical Textiles

- All 12 segments of Technical Textiles including nonwovens and composites

Some of our Esteemed Members...

and many more...

MATEXIL to Promote Exports of Technical Textiles (TT)

MATEXIL has been Assigned for the Role of Export Promotion of Technical Textiles by Government of India

Shri Piyush Goyal, Hon'ble Union Minister of Commerce & Industry and Textiles and Shri Darshana Vikram Jardosh, Hon'ble Minister of State for Textiles & Railways granting Office Memorandum for Allocation of Technical Textiles EP to MATEXIL.

No. 12015/15/2020-TTP
Government of India
Ministry of Textiles
Textiles Trade Promotion Section

Udyog Bhawan, New Delhi
Dated the 12th September, 2022

OFFICE MEMORANDUM

Subject: Allocation of Technical Textiles segment to EPC – reg.

Technical Textiles are futuristic and sunrise industry segment of textiles, which are used for various applications ranging from agriculture, roads, railway tracks, sportswear, health on one end to bullet proof jacket, fire proof jackets, high altitude combat gear and space applications on other end of spectrum. Technical textiles are textiles materials and products manufactured primarily for technical performance and functional properties rather than aesthetic characteristics. With a view to boost technical textiles sector in the country, Ministry of Textiles is implementing National Technical Textiles Mission (NTTM).

2. The undersigned is directed to say that one of the task under NTTM was creation of Export Promotion Council for Technical Textiles for effective coordination and promotion activities in the segment. Currently, there are 207 lines notified as Technical Textiles by DGFT's notification dated 15th Jan 2019. However, it was decided that it is premature to set up a new Export Promotion Council as total export of Technical Textiles lines (207) in 2021-22 is only 2.84 USD billion. Out of total export of 2.84 USD billion of 207 lines, members of SRTEPC deals in 63 lines and have export value of more than 55%.

3. The basis raw material of majority of Technical Textiles products is Man-made fibre, therefore it is appropriate to assign the role of export promotion of these products to SRTEPC. This will create accountability and responsibility for promotion of Technical Textiles on SRTEPC in more focussed and dedicated manner. Hence it has been decided with the approval of HMoT to assign the role of export promotion for all the HS lines of Technical Textiles to SRTEPC including 207 presently notified and other lines to be notified as Technical Textiles.

4. Department of Commerce/DGFT is requested to take necessary action in this regard.

(M Ramakrishnan)
Under Secretary to the Govt. of India
Ph.No. 011-23061522

Email: m.ramakrishnan94@nic.in, tepj2@nic.in
