**REVISION OF PREMIUM RATING FOR MDM SECURE INSURANCE SCHEME 2022**

**12 July 2021**

Dear Doctors,

Greetings from SSCA and we hope you are safe and your practice has not been affected by the pandemic.

This Scheme started in 2018 and during the last four years the premium was only increased for anaesthesia, bariatric surgery, obstetrics & gynaecology, orthopaedics with spinal surgery and plastic, reconstructive and cosmetic surgery in 2019. The premium was too low for the respective specialties then.

In 2020 the premium was raised for dermatology and emergency medicine. A new category – general practice with aesthetics was also included.

For 2022 the underwriters saw that some of the premiums were too low for the Scheme and has not been revised. For some specialties there is an increase, some a decrease and some no increase were made.

PLEASE refer to your specialty when renewing to ensure the correct premium is paid. To assist you we have prepared a list showing an increase, decrease or no increase to the 2022 premium.

### **INCREASE IN PREMIUM**

1. Cardiology – interventional
2. Cardiology – non-interventional
3. Gastroenterology
4. Geriatric medicine
