Others	5%	6%	3%
Total	100%	100%	100%

Commenting on the performance Mr. Anuj Talwar, Jt. Managing Director, Talbro's Automotive Components Limited said, "I am pleased to share the current quarter results of Talbro's group today. We had started off the year at lower pace amidst pandemic, while in the 3rd quarter, we have achieved highest ever revenue numbers with over 35% growth YoY and remarkable EBITDA margins despite rollback of certain costs.

We have grown faster than the Industry. We are moving towards the road of evolution gradually. From 20% exports in FY 20, we have reached 24% level in current fiscal. We aim to increase export to 30% in next 5 years.

We appreciate measures taken by Government to support the industry. PLI scheme will add up to our margins with increased exports. Long awaited scrappage policy for government and PSUs and addition of voluntarily scrappage of vehicles for private sector will boost up the demand of automobiles.

We have vast experience in exports, and our technological partnerships are adding up marquee clientele to our portfolio. We remain positive on our path to recovery with addition of multiyear orders to our company.”

About Talbro's Automotive Components Limited:

Talbro's Automotive Components Limited., the flagship manufacturing company of the Talbro's Group was established in the year 1956 to manufacture Automotive & Industrial Gaskets in collaboration with Coopers Payen of UK.
