

COVID-19 : RESHAPING THE FUTURE OF VETERINARY PROFESSION & INDUSTRY

Welcome Message from Congress Chairman

It is my pleasure to announce that the **Malaysian Veterinary Medical Association, MAVMA** (formerly known as Veterinary Association Malaysia, VAM) will be organising the **32nd MAVMA Congress** which will be held from **15-16 July 2022**.

Since the last congress in 2019, the world has seen the emergence of SARS-CoV-2 and the accompanying unfolding of the COVID-19 pandemic. This congress will be the continuation after a two-year hiatus caused by the pandemic, and it will be the first to be held under the new association's name after it was approved by the Registry of Societies (ROS) in January 2021. Given the focus on the post-COVID19 pandemic, our plenary speakers will discuss zoonotic disease surveillance, COVID vaccine development and transboundary disease control. In addition, 32nd MAVMA Congress 2022 will share the perspectives and breakthroughs within the veterinary community. This upcoming congress, with the theme "**Covid-19: Reshaping the Future of the Veterinary Profession and Industry**", will serve and provide valuable current information to propel us to the next level of veterinary medicine and services in this COVID-19 pandemic situation.

Our fellow committee members are working hard to put together an impactful and relevant scientific programme, with specially crafted knowledge exchange sessions and networking opportunities with fellow peers in the industry. The annual MAVMA Congress is an excellent platform to exchange ideas, share information regarding ideas and application of veterinary-related tools and other allied sciences, and a great occasion for all members to meet and greet, make connections, and network. With the information obtained from the 32nd MAVMA Congress 2022, it is hoped that we could reshape the future of the veterinary profession and industry towards adaptability and resilience.

I would like to extend our sincere invitation to yourself and fellow colleagues in our association to join us in the 32nd MAVMA Congress 2022 to make this congress a great success. On behalf of the MAVMA Executive Committee and Organising Committee, we thank you for your support and look forward to seeing you at the congress!

Dr. Helen Mitin
Chairman
32nd MAVMA Congress 2022 Organising Committee

COVID-19 : RESHAPING THE FUTURE OF VETERINARY PROFESSION & INDUSTRY

Tentative Programme

15th July 2022
