

Call for Late Abstracts

EACR 2025 Congress

Late abstract submission deadline: **22 April 2025**

Abstracts can only be submitted online.

Abstract Regulations

With the submission of a late abstract to the EACR Annual Congress 2025, the submitting author/presenting author:

- Accepts responsibility for the accuracy of the submitted abstract.
- Confirms that all co-authors are aware of and agree to the content of the abstract and support the data presented.
- Warrants that the data and conclusions presented in the abstract have not been published **in the same format** and **with the same title** prior to the date of the Congress.
- Identifies any financial interest in products or processes described in the abstract. This information is to be forwarded to the Scientific Committee together with the abstract.
- States that, for studies involving human or animal subjects, permission has been obtained from the relevant regulatory authority and properly informed consent given where appropriate.
- Gives permission for the abstract to be published by the European Association for Cancer Research (EACR) on the Congress website and through the Congress app. Abstracts submitted during the late abstract period (10-22 April) will NOT be published in an online supplement to the journal Molecular Oncology.

Presentation of abstracts: All abstracts submitted during the late abstract period (10-22 April), are not eligible for oral or spotlight presentation. All abstracts selected for poster presentation at the EACR 2025 Congress must be presented in person.

The submitting author for each abstract must designate a presenter who agrees to register for the Congress and present in detail the research discussed in the abstract. **We strongly advise that presenting authors put funding and/or visa arrangements in place as early as possible to avoid disappointment.** Please note that the early rate registration deadline will NOT be extended for late abstract submitters, so to take advantage of a cheaper registration, the presenter will need to register and pay by 28 April.

If the assigned presenter cannot attend the Congress, the authors are expected to designate a replacement or withdraw the abstract no later than 16 May 2025.

If by 16 May 2025 the presenting author of the abstract is not registered the abstract will be withdrawn from the programme and online publication.

Abstract Format

In order to be considered, an abstract should respect the following guidelines:

- The abstract must be submitted in good English. The Scientific Committee reserves the right to reject those abstracts which are presented in poor English, or may request an immediate revision by the presenter.
- Abstract titles should be brief and should reflect the content of the abstract.
- Commercial names may not be used in the abstract title.
- **No more than 10 authors can be listed.** Only institutional affiliations, cities and countries should follow.
- Abstracts should be organised under the headings:
 - Introduction
 - Material and method
 - Results and discussion
 - Conclusion
- The online abstract submission procedure will **not** accept abstracts that exceed 2,500 characters (body of the abstract; without spaces)
- Abbreviations may be used if standard or if spelled out and defined at the first use. Compounds should be mentioned with the generic name, in lower case. Commercial names are admitted in the text, with an ®, and if in brackets following the generic name, i.e. “generic (Commercial ®)”.
- Supplementary data or appendices will not be accepted.
- Figures or photographs are not allowed. Symbols and structures of drugs are allowed and should be included in the text itself.

Only the **submitting author** will receive a confirmation/abstract number by email from the EACR 2025 Congress Team within 48 hours of submission. This confirmation of abstract receipt is NOT a notice of acceptance to present at the Congress.

We strongly advise that presenting authors put funding and/or visa arrangements in place as early as possible after submission to avoid disappointment. The presenter will need to register and pay by 28 April to take advantage of the early registration rate.

For questions regarding the online submission process, please contact our support team via: eacr@newway-management.com

Abstract Selection Process

The Scientific Committee will make the selection of abstracts for poster presentations by **30 April 2025**. The presenting author will receive an email with the result of the review and the Scientific Committee’s decision on the abstract no later than **30 April 2025**. Further instructions on how to prepare posters for the Congress will be provided. If a selected author cannot present, the presenting author should assign a replacement presenter to present the abstract.

The only presentation format available for late abstracts is a poster. Late abstracts will be grouped together and displayed during specific Poster Sessions. Formal Poster Defence Sessions will be scheduled.

Please note that if your abstract is accepted for poster presentation, the abstract will only be published on the Congress website and in the Congress App **if the presenting author has registered and paid for the Congress by 16 May 2025**.

If the presenting author has not registered and paid **by 16 May 2025, the abstract will not be published or accessible from the Congress platforms, and a poster board will not be provided.**

Only abstracts submitted online will be accepted. Abstracts submitted on paper or as email attachment will not be considered.

For questions regarding the online submission process, please contact: eacr@newway-management.com
